– Meet the Millers –

We met while performing in our high school production of *Anything Goes*, and seven years later, we were married on that same stage. We quit our full-time jobs and started Sun Prairie Films while living in Sun Prairie, Wisconsin.

We welcomed our firstborn, Archie, in 2015 (that's right, Prince Harry, we got there first), Eddie in 2019, and Walter completed our family in the summer of 2021 (hey there, Covid baby!).

'I grew up with just about every animal you can think of, so I have an incredible soft spot for critters. I love hanging with my boys and playing my ukelele.'

Casey

Michael

'You'll most likely find me with a Nitro Cold Brew in hand while listening to *We Came as Romans*, *Oh Sleeper*, or *Outline in Color*. Or my playing video games.'

As a family, we love spending time together. We love going for family walks, movie nights, and going on road trips. Our last road trip was to South Dakota, and we loved every minute of it. And our current favorite show as a family is Battle Bots!

"We were recommended by a family friend to use them and I am beyond happy we did! I would recommend this husband and wife team for both wedding photography and videography... you will not be disappointed!"

- Athena + Ryan

"For our wedding day, WOW! Absolutely amazing. The overall product was better than I could ever imagine. The highlight video had so many of our friends in tears. It was just PERFECT!"

| Your Experience |

What's it like working with a married couple? The short answer: ah-MAY-zing!

Together, we make your day easy thanks to a well-honed shorthand that comes from being married, parents, and business partners. Working together means more than just being able to jokingly shout "get out of my shot!" without worrying about hurt feelings ... though that's definitely a perk. We've been doing this for nearly a decade now, so we know how to move around each other and have built skills that complement. The level of trust we share with each other and extend to you is simply baked into who we are.

Whether you're choosing video, photo, or (our favorite) both, we take pride in working together for you.

This isn't just a transaction between you and us. We're working with you to guide you toward a gorgeous, unforgettable day that you savor for years to come.

I've been filming weddings for 10 years. I have over 300 weddings under my belt. You can trust that I will be there to document one the biggest day of your lives.

I am there to film all the big moments of your day. Ceremony? Toasts? Formal dances? You'll be able to relive all these important events in their entirety.

While I prefer to film along side my wife, I work great with any photographer. I capture what I need while staying behind the scenes.

After the wedding I use my creative talents to craft the story of your day. I work closely with my couples until they are 100% satisfied with their highlight video.

In the end, it's your video.
I want you to love it as
much as I do.

Michael

The Videographer

During the wedding planning, I provide questionnaires, vendor recommendations, and a customized timeline. I create a photo shot list to make sure I capture all the photographs that matter to you.

My style is crisp, true to color, environmental portraiture, meaning I love to incorporate and showcase the environment where you get married into your photographs while still focusing on you.

Planning a wedding can be overwhelming. I'm here to take away as much stress as possible.

Frequently Asked Questions...

1. Do we have to book you for BOTH photo + video?

While we specialize in working together on the wedding day doing both photo & video, we can always do our jobs separately. If you already found a photographer, you can hire us for just videography, and vice versa!

2. How & when do we receive our final products?

Casey delivers your final photo gallery within 4-6 weeks of the wedding day. Michael will edit a rough draft of your highlight video within 2-3 weeks of the wedding day. Your full length video footage will be delivered online 2-3 weeks after your highlight video is complete. Any other tangible products will come after the above is delivered.

3. How many photo images do you deliver?

You receive 70 to 90 images per hour of coverage we're there. For example, a 7 hour wedding day could mean a photo gallery between 500-650 images.

4. What is your backup plan if something happens to you?

Second shooters! Booking a second shooter with us doesn't mean we don't know how to do our jobs, but it absolutely ensures that someone from our team will be there to capture your day.

5. Do you charge for travel? We do not charge travel for weddings within a 3 hour drive of the Denver/Metro area.

6. What do you require for a down payment, and is it refundable? We ask for a 50% retainer to secure the date. Because we decline any other work for your wedding date, our deposit is not refundable.

7. Are you insured? Yes! We'd be happy to provide you or any of your vendors with our full liability policy.

8. Should we do a first look? We highly recommend doing a first look. Not only does it get some of those tears and jitters out of the way, but it allows you and your significant other an intimate moment together before all of the craziness happens. It also really helps with the flow and timeline of the day. The faster we get those photos + videos done, the more you can party!

9. What does it mean that you get to retain the copyright of the photos + videos? That simply means that we retain the creator rights of the products we deliver. You receive print & sharing authorization to do with your photos and videos as you see fit.

10. How would you describe your style? Our style is true to life, vibrant color with a cinematic and journalistic touch. While we may pose you here and there, we specialize in the candid and organic nature of your wedding day.
