- Wireless sound recording of ceremony & toasts
- A feature film approximately 10-20 minutes in length
- A trailer approximately 2-4 minutes in length
- Guaranteed delivery in less than 12 weeks
- Thumb drive with with the feature film + trailer in both full resolution size as well as an HD version suitable for online streaming

### A LA CARTE OPTIONS

**Second Shooter (\$500):** This is our most popular add on. A second shooter allows for a longer feature film and significantly more coverage of the ceremony, toasts and the day in general. The first shooter will usually stay with the bride and a second shooter allows for filming of the groom's preparation as well as setup of the venue.

**Fully Edited Ceremony Film (\$200):** The feature film will include selected moments from the ceremony, but if you'd like to see & hear the entire ceremony from start to finish, edited together with multiple camera angles + with music, then we recommend this add on.

**Separate Files for the Toast (\$50):** The feature film will include moments from the toasts, but if you'd like to see all the toasts so you'll remember their words of wisdom for decades, we recommend this add on.

**Additional Coverage (\$75/hr):** If you need more than 12 hours of coverage for your day, we're always flexible. This can be arranged ahead of time or adjusted on the day.

**Location Wedding (Negotiable):** We are based in Atlanta, GA but are happy to travel anywhere in the world.
