WEDDING GUIDE 2022-23

A close-up photograph of a couple in formal wedding attire. The man, on the left, has a red beard and is wearing a black tuxedo with a white shirt and a black bow tie. He has a boutonniere on his lapel featuring white and red flowers. The woman, on the right, is also wearing a black tuxedo with a white shirt and a black bow tie. She has a boutonniere on her lapel featuring a red flower. They are holding hands, and the woman is wearing a gold ring on her finger. The background is a blurred outdoor setting with greenery and a body of water.

Jas K Productions filmed and photographed my brother's destination wedding in Evergreen, Colorado. Their team was so accommodating and amazing. The photos and video footage were exactly what they were looking for, however it was the things they did to go above and beyond that really made the experience special. They waited through a rain storm to get photos, were personable and clicked with the entire wedding party, and Jas even gave my parents video footage, so they were able to watch the full ceremony. I highly recommend this company; they seem to just "get it."

## HEY, IT'S JAS! (THEY/SHE)

I was born and raised in Orlando, Florida but made the 1,800 mile voyage to Colorado in July of 2020 and now call Denver my home! I love this city!

Like many others, I was out of a job when COVID-19 hit and found myself struggling to find work that I was passionate about so I decided to dive right into a full time career as a photographer, videographer and digital creator. Since then, I've had the opportunity to connect with amazing people from all over the globe and I hope you'll be the next.

I specialize in weddings and portrait photography, but I also work in fashion editorial and branding work and love to combine the two styles. (I'm a Leo sun, Gemini moon, Cancer rising. A romantic and edgy side!) Whatever the project, I'm always working to capture unique and eye-catching media that makes a statement and tells a story.

As a queer person of color, it's important to me that I'm actively creating art that is culturally relevant, respectful, and powerful. I strive to spotlight and empower underrepresented communities at every opportunity.

Work stuff aside, we'll probably vibe if you're into coffee shops, city views, fast food, or all of the above! You can catch me at the rock climbing gym, snowboarding down a mountain, or biking to drag brunch.

## INVESTMENT

EVERY STORY IS WORTH TELLING

"We wish we got the smaller package." Said nobody, ever!

Your love story deserves to be told. We're all about #NoRegrets around here! So trust us when we say, you're going to want an epic video to go along with your pics! And why not work with just one talented (and cool) team? After years in the wedding industry, we feel confident that we've curated these packages to best serve our couples as they begin the journey of a lifetime.

That being said, we'll never push you to sign on for more than necessary. We have our clients' best interests at heart and ultimately want your memories to be captured as perfect as possible. We're always down to make it happen, no matter the scale!

## TIPS FOR A MEMORABLE ENGAGEMENT SESSION

YOU'RE NOT BASIC, SO WHY SHOULD YOUR  
PHOTOS BE?

Take 1, action! Get all the nerves out, practice your  
best vogue, and have the best date night ever! Make  
your engagement photos something to look forward to.  
Let me tell your story and bring out your inner model!

## LOCATION IS KEY

The first question I always ask is about location! I've got a whole list of go-to spots to match every vibe, and I'm always scouting for more. A couple of questions to get you thinking:

What kind of space feels romantic?  
Mountain view? Arcade bar?

What's the color scheme?

How can we make this fun and stress free so we can have a great time?

## GATHER INSPIRATION

Find inspiration from creators on Pinterest and Instagram (hopefully on mine too @jaskproductions)! Consider a few things when planning your photos:

A theme, perhaps? (i.e. elegant, goofy, edgy, casual at home, artsy, inspired by a movie, etc.)

Outfit wise, what will make you feel the most confident?

Finish by browsing poses so you have an idea of what to expect at the session! Bonus points for practicing!

## POP A BOTTLE

If you like the occasional bubbly, bring a bottle (or two) of cheap champagne! Not only does it make for a super cute picture, but also makes for a nice toast to get you loose. (Adjust and make it you. Get wild with some caffeine and ice cream!)

The last thing you want to be is stiff in your photos. So why not let go a little? This will be a fun moment to celebrate your love! (I'm just the third wheel, hype man, following you with a camera.)

## PLAN A MINI ADVENTURE

For the best possible engagement session, let's make it an adventure! I can follow you through the city as you run through the streets and stop for pizza. We can go on a beautiful hike to the lake and end with a camp fire. Or I can set up a luxury picnic with elegant snacks at the park. Whatever your dream date is, consider making it happen!

You'll have a freaking incredible time, unique photos, genuine candid, and a mini-honeymoon moment. Let's go all out because this is your time to shine away from the crowds and parents!

Jas crushed it with these photos! We are so thrilled! Going through the album was like reliving our wedding day. Everytime we check the gallery we are so excited! Thank you so much for capturing every moment just perfectly. Everything looks just like I remember. We will cherish these photos for the rest of our life!

## EXPERT ADVICE FOR *GOOD VIBES* ON YOUR WEDDING DAY

KEEP YOUR COOL AND ENJOY ONE OF THE BEST DAYS EVER!

Planning a wedding can be overwhelming. But once we get to the big day, we want to minimize stress as much as possible! So here are a few factors to consider before the cameras start rolling.

TRUST YOUR VENDORS

The last thing you want to do is worry about who is where and if they’re doing their job correctly. Make sure that you are comfortable, confident, and excited in everyone’s work and it will make your day run smoothly.

ASSEMBLE THE TEAM

We highly recommend hiring a wedding planner first and foremost. But who else can be trusted to hold the rings? Who’s gathering the film cameras and taking the selfies? Who has your phone and your favorite snacks? Make sure your squad knows their tasks and don’t be afraid to lean on them.

UNPLUG YOUR WEDDING

It’s a sea of phones! A photographer’s nightmare. And don’t get me wrong, a quick memory no matter the quality is worth it. But encouraging your guests to set their phones down, at least for the ceremony, will make for a more gorgeous setting free from distractions.

Confiscating phones at entry is another route that we would support. Just consider a second photographer to make sure every guest gets a photo! Grandparents especially gets antsy with this policy. Who knew!

CONSIDER A FIRST LOOK

Traditionally, people like to see their partner as they walk down the aisle. But a first look is arguably more special! Take a private moment to enjoy each other and scream about how FINE they look!! Plus, we can get more photos out of the way before ceremony time. So afterwards, all you really have to do is party!

EXPECT THE UNEXPECTED

Ok let’s just get into this mindset now. We’re gonna keep breathing and having the time of our life. There are bound to be bumps in the road. Let’s try to plan, but ultimately roll with the punches. I went to a wedding where it unexpectedly snowed on a beach. And one where the groom was three hours late due to transport confusion.

That’s not for you. However, I’d love for ya’ll to be prepared for adventure and know that I’ve got your back in any situation. Borrow my phrase if you’d like “Hey, this is great for the plot!”

YOU DO YOU, BOO!

This is your big day. Shut out the outside influences and don’t regret a thing. Make that pit stop at McD’s!

You got this and you’re going to crush the wedding game! I’m rooting for you!

## LOVE LETTERS

### THE PEOPLE HAVE SPOKEN!

The results are in and it sounds like they're loving the Jas K Productions experience! We pride ourselves in our consistent five star rating, not on our ability to hold back tears as we read these.

### SYBIL & REENY

I feel so incredibly lucky to have found Jas to photograph one of the most important moments of my life. My proposal was planned on a whim as a surprise trip from Houston to Colorado Springs. Jas felt like a friend we had already known as she helped us feel very comfortable as she helped guide us through the shoot. I highly recommend Jas for anyone who want spectacular photos that will last a lifetime.

### NIK & TAY

The rain put a damper on our plans, but Jas was ready to rock and never missed a beat. Running around while trying to beat the weather and getting the best shots, she was a flurry of energy and driving direction that gave us the best shots we could get. She was a blast to work with and did a great job!

### AUDREY & JEFFERY

Jas was incredible; I highly recommend booking with them! From the first time I contacted them, they were extremely helpful. On the day, Jas made us feel completely comfortable. They made the session so much fun while also being chill and relaxed. By the time we were done, my fiancé and I didn't even care about how the photos would possibly come out because the experience was that enjoyable. But when we did receive the photos, our expectations were exceeded!! We plan to use Jas as our wedding photographer after the incredible session we had!

### FELICIA & PATRICK

Jas K Productions made my wedding day! The whole team was super helpful during the day, very creative with shots that they took and very engaged with the whole event. The pictures that I have received are just beautiful and will help me memorialize the whole day!

# FAQS

answering those  
burning questions

## When and how will we get our photos/video?

My business focuses on digital images, so you will receive a personal online gallery! You will be able to download your photos, share them with friends and family, see a slideshow, and even order high quality, professional prints. (It's a great and small way to support us.)

A typical 8 hour wedding will take us between 6-8 weeks to edit to perfection. Sneak peeks will be available within 24 hours for most packages!

Your gallery will be hosted online for at least 3 months.

## What should we expect on the wedding day?

Just go along with your day as planned. The team will arrive at our coordinated time, get set up, and start snapping away.

When I'm documenting, I try to be stealthy in the background to get all those candid shots. Just pretend I'm not even there! Don't worry, I'll step in to make sure we stage any shots, plus I will always give guidance and hype you up!

At the end of the day, I'll pack up, wipe my tears of joy, and say goodbye as I head home to backup all your files.

## What if we need more time?

Most weddings run a little bit off schedule, even if just by 15 minutes. But that could also mean an hour and you could be missing a key part of your wedding day in your memories. So let's plan accordingly with a Plan A: book for a safe number of hours ahead of time. Plan B: hope that I can stay longer and pay the hourly rate when the time comes. I like to be flexible so if I can help, I will! Of course, let's just try to minimize any uncertainty as early as we can!

15-20 minutes is no big deal, but after that, I'll have to charge.

## What about travel?

YES! I would love to get out of town with you. Let's talk about how to coordinate travel expenses and keep it at a minimum so we can make it happen! It's easier and less expensive than you'd think.

Local travel is covered for weddings within 60 miles roundtrip of Denver, CO. After that, we calculate at 53.5 cents per mile.

## Can I have the RAWs?

Quick answer: No. And that's an industry standard.

The product simply isn't finished yet. I like to use the example of a cake. We wouldn't ask the baker for just the ingredients. When photographers take pictures, the RAW files are great starting points, but it takes the right knowledge and techniques of editing to make them look incredible. I value my work and artistic integrity, so I hope you will too!

Typically we never need a re-edit, but if you ever want changes, I'm here to help!

## Who owns the copyright?

Photographers hold copyright to all the images, but you are allowed to showcase them on social media for personal use! If you're uncomfortable with me using your photos on my website or social media please feel free to let me know and I will respect your wishes.

## Can you make me look skinny?

Our brand doesn't believe in altering your body to "make you look beautiful." We already think you are! And so while I'll help you get into the most flattering angles, and maybe hide a zit or two, I'm not going to take off 20 pounds or photoshop your shirt into a suit. Ask me to photoshop Justin Bieber into the wedding party... and I might.
