**WEDDING GUIDE**  
PRICING AND INFORMATION

# Hi, I'm Liz

As an elopement and small wedding photographer, I travel the beaches, fields, and mountains of Northern California, documenting sincere moments of love. From windswept kisses to quiet cuddles, capturing genuine expressions of love always floods me with a bone-deep sense of purpose and joy. That's why I'm so drawn to more intimate wedding celebrations: the intimacy gives us the space to slow down and be a bit more intentional. And although saying so long to my stable career in chemistry was one of the hardest things I've ever done, spending my days exploring the world and discovering the unexpected with couples like you is what I was born to do. Well, that and exploring a farmer's market or snuggling with my little ones!

I look forward to trading thrilling adventure stories and interesting new recipes while creating a photography collection that perfectly fits the unique celebration you're planning! Your story is one that deserves to be told and retold for generations to come. And I hope to tell it with you.

# My Philosophy

You're already living a breathtaking love story. The way your personalities blend to form something new and beautiful is remarkable, and your expressions of love – from lingering touches to bursts of laughter – are just as powerfully unique. So, I approach my role as your wedding documentarian a bit differently.

Instead of forcing smiles and introducing artificial poses, I simply create space for you to connect naturally. I'll certainly help you to look and feel amazing, but your instincts and interactions will lead the way. Because I believe there's no right or wrong way when it comes to celebrating the day you say "I do."

I want to give you images that feel uniquely you. And only by collaborating with you to create an experience all your own can I give you images that fill you with as much love as you feel for each other. So, let's tell your story!

# What Our Clients Say

---

## STEPHANIE AND KYLE

Her candid style really captured some wonderful moments during the ceremony, and that is exactly what we had hoped for. I honestly think I took her for granted, because I barely noticed her and her wonderful assistant during the entire day. We love our photos and will treasure them forever.

## MEGAN AND DUSTIN

Liz left us in tears of joy looking through our gallery. I will never forget her kindness, her vision and skill and most importantly the talent she has for capturing life's most precious moments.

## TAYLOR AND JORDAN

Liz has a way of making you feel so comfortable that you forget that you're posing for some of the most important pictures that you'll ever take. She has an amazing ability to capture personalities through her pictures

# Let's do this!

## SAVE YOUR DATE

To ensure your date is marked on my calendar, simply return a signed contract and paid 1/3 retainer. I'm happy to accept cash, check, or credit card payments. Then, it's time to begin the planning journey together! The remaining balance won't be due until 30 days before your wedding or elopement date.

## BEGIN THE ADVENTURE

I'm thrilled to begin working with you, so why wait to begin? Immediately after saving your date, you'll receive a welcome questionnaire that will help us plan your engagement session and the rest of your experience. Because I believe open, honest communication is the foundation of astonishing photography, I encourage you to stay in touch throughout the process. Whether you have a question about photography or your celebration, I'd love to hear from you and give you a hand! One month before your big day, I'll be in touch with a second questionnaire to finalize the details. Then, we will hop on a final call to review your questionnaire, fine-tune your wedding day timeline, and answer any remaining questions. I want to ensure you feel confident and cared for every step of the way, so reach out at any point if you feel you need a bit more!
