I'm of the "free photos" school of thought. This means that the price of your session includes the cost of my time, my talent, any tangible items included in your package, and any necessary editing work. Your pictures are "**free**". This implies that the amount of photos you will receive isn't fixed in stone. Your gallery will feature the best images from your session!

Typically for an hour portrait session you can expect 10-20 retouched digital images!

**For studio sessions an additional \$150 fee is charged to cover cost of studio rental.**

### HOW TO SECURE YOUR DATE

To secure the booking date, we will normally do a call to confirm the location of the shoot. I will then forward a quote for acceptance and contract. Once those are executed an invoice will follow with all the links for payment.

Payment Terms - 35% non refundable deposit on date on contract signing /  
Balance due 2 weeks prior to the wedding date.

## KEY INFORMATION FOR PORTRAIT SESSIONS

Due to the nature of our package pricing it is important that the following key facts be emphasized:

- It is critically important to be on time. The hourly session starts not when the client arrives but at the agreed upon session start time.
- Late arrivals will result in either additional fees for time overages (when no other booking conflicts with the time overages) or limited session time.
- Time overages are calculated at the fractional rate of the hourly fee (i.e. a 30 minute overage fee would be calculated at  $30/60 \times \$350 = \$175$ ). These fees must be paid prior to final delivery of images.
- Image delivery will be online with the option for both high resolution images and web resolution images. Physical prints and products may be purchased directly from the private online gallery (prices for products will vary).
