### **1. Initial consultation**

Let's grab a coffee. Our initial consult is a chance for us to get to know the couple. We pick up on personalities and it allows you to see samples of our work in person.

During this meeting we discuss what is important to you, we answer any questions you may have, and we get to talk about the proposed timeline of your day. After this discussion, we then put together a proposal with numbers and packages based on our conversation.

### **2. Let's Shoot**

It's the big day. The day you've dreamed of. Being stressed is totally normal, but our job is to take that stress off your plate as much as we can. We always try to attend the wedding rehearsal, as it helps us meet everyone and get an idea of all the moving parts. The big day we arrive early, try to pre-scout the locations, and then get started. We walk in ready to shoot, and we leave the end of the night hopefully leaving a great impression on you and your family.

### 3. Editing

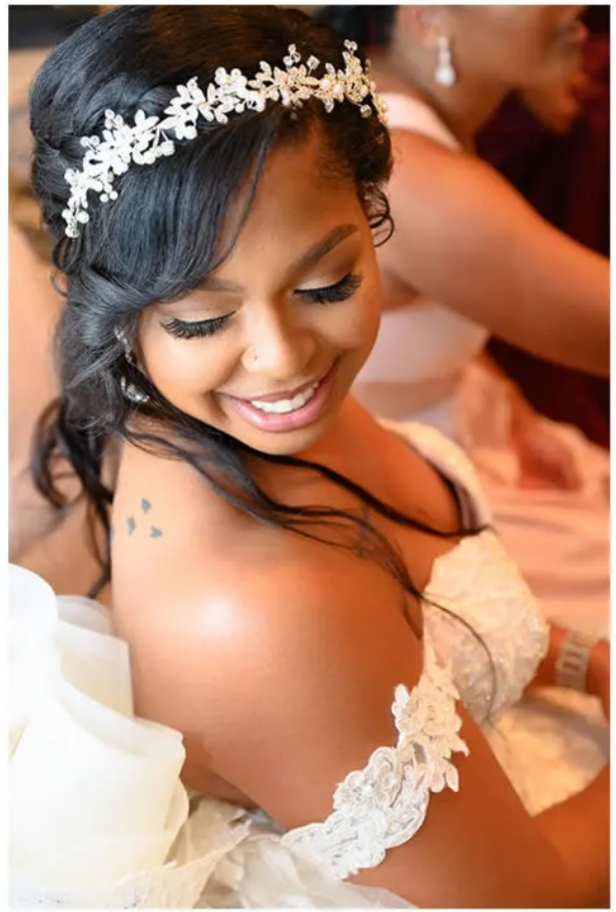

After the shoot we take the files back into post production. We believe in finalizing our images. Whether its color correction or a fully retouched image, we work to perfect our images to give you the best quality images.

### 4. Final delivery

After your images are finalized. You have a few options for delivery. We like to deliver via the cloud so that you dont have to keep up with a little USB. However, the best thing to do after your session is to print those photos out.

Generations pass down photos not hard-drives.
