

## about my studio

I am a mother of two and photographer full-time.

Coffee is my greatest sin and I'm okay with that.

I have been behind the camera for about five years and love the images that I have been blessed to create.

Whenever possible I work with natural light, it's just lovely.  
There's nothing I love more than a window!

I'm very easy going and love collaborating.  
All of my clients know, I WANT to hear your ideas...

Let's chat! :)
