WELCOME GUIDE

Welcome friends!

I'm so glad you're here - I'm honored to help you create memories that will last a lifetime. I know the stress of planning a wedding personally and how important it is to have someone in your corner every moment of the day.

I've created this packet to welcome you into my life and, in turn, to introduce myself to yours. Hopefully, by the time you've read through it all, initial questions will have been answered, and you'll feel ready to start your journey with me.

Your only job is to be yourselves, and I'll take care of the rest!

The Style

Natural, candid, emotional, unique.

All words I like to use when I describe my style. I try not to get too caught up on perfectly posed bodies or cliché photos because I want my photos to represent the uniqueness that is YOU.

In each session I do, I always aim to try something new and different.

I like backlit, warm golden glows, natural tones, creative techniques that make your photos unique and dramatic. My pose prompts range from silly to intimate and everything in between.

I edit all the images I deliver to you, some in color, some in black in white. While most of my sessions are consistently warm and rich-toned, I have been known to edit per clients' requests.

The Process

Step 1 - read this guide and check out the investment section above, which outlines my packages and pricing. If you think we'd be a good match, great!

Step 2 - the consultation. We talk on the phone, via zoom, or in person about your ideas, dreams, and everything in between.

Step 3- you pick your package, sign your contract, and pay your deposit.

Step 4 - if you're doing an engagement session, we get that scheduled and make that happen. You'll get those images a few weeks after the session for announcements, invitations, etc.

Step 5 - about a month before the wedding, I'll send you a "wedding prep guide" with a TON of info to help guide you.

Step 6 - my assistant and I show up to your wedding ready to kick some serious wedding ass.

Step 7 - I process and edit your images and put them into an online gallery 12-16 weeks later (time can vary with the season). Your gallery has a store to allow you to order prints and other products from your day!

Step 8 - if you have an album included, you'll be able to select your favorites from the day to include in your album. Once you've selected favorites, I create your album to be hand-delivered to your door by yours truly!

Step 9 - we stay friends forever, and you and your boo live happily ever after!
