ABOUT ME

I am a dad and husband who loves working with couples to make their special day memorable and care free. I want to share my passion for capturing life's wonderful moments with others. I support love in all its forms and celebrate every couple's traditions, culture, and religions. As a small business owner, I have made the decision to **donate 5% of your booking** to one of six select organizations that I either have a personal connection with, or are important to our community.

ORGANIZATIONS I SUPPORT

The logo consists of the letters 'R | O' in a white, sans-serif font, centered within a solid black square.

EPILEPSY FOUNDATION

The Epilepsy Foundation, a national non-profit with more than 50 local organizations throughout the United States, has led the fight against seizures since 1968. The Foundation is an unwavering ally for individuals and families impacted by epilepsy and seizures. The Foundation works to prevent, control, and cure epilepsy through community services; public education; federal and local advocacy; and supporting research into new treatments and therapies.

DANA FARBER CANCER INSTITUTE

Dana-Farber Cancer Institute provides expert, compassionate, and equitable care to children, adults, and their families, while advancing the understanding, diagnosis, treatment, cure, and prevention of cancer and related diseases. We train new generations of clinicians and scientists, disseminate innovative patient therapies and scientific discoveries around the world, and reduce the impact of cancer, while at all times maintaining a focus on those communities who have been historically marginalized.

MSPCA

The programs, services, and activities of the Massachusetts Society for the Prevention of Cruelty to Animals (MSPCA) radiate from our central mission “to protect animals, relieve their suffering, advance their health and welfare, prevent cruelty, and work for a just and compassionate society.”

MASS AUDUBON

Mass Audubon is the largest nature-based conservation organization in New England. Founded in 1896 by two women who fought for the protection of birds, Mass Audubon carries on their legacy by focusing on the greatest challenges facing the environment today: the loss of biodiversity, inequitable access to nature, and climate change.

THE TREVOR PROJECT

LGBTQ+ young people are much likelier to experience depression and thoughts of suicide — especially if they are bullied by their peers or rejected by their families for their identities. The Trevor Project, founded in 1998, addresses this health disparity with a number of crisis interventions and community resources.

SHELTER MUSIC BOSTON

Shelter Music Boston presents classical chamber music concerts, of the highest artistic standards, in homeless shelters and other sheltering environments. Their goal is to promote community, creative interaction, respect, and therapeutic benefit. They believe all people deserve access to the dignity, creativity, and passion of classical music whether or not they have a home.
