About

Hello fellow earthlings! My name is Alexandra Saad, and I'm the artist behind Moon Sage. This company is a result of my passion for history, words, and art - plus a heaping dose of whimsy.

At Moon Sage, I focus on decorative hand lettering and modern calligraphy. I work with brides to develop beautiful invitations, programs, chalkboard signs, place settings, and more. I get to meet awesome individuals and craft lovely monograms that celebrate their relationships or their own fabulous selves. In short, I get to do all of my favorite things at work every day, and I'm so incredibly grateful for it.

The aesthetic of my work at Moon Sage is whimsical, elegant, and historical. I create my own handwritten fonts; some which evoke a playful feel with their spindly lines, and others that evoke an organic yet elegant ideal. My many years spent studying historical texts and diaries have led me to develop a bit of a penchant for early writing styles and flourishes.

I can't wait to meet you and design something beautiful.
