OUTDOOR SPACES

THE TERRACE

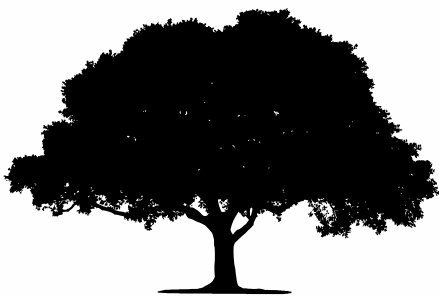

Just below the covered deck, the bride will make her grand entrance down the stairs and pass under the white arch. The terrace is full of color regardless of the season due to a variety of meticulously maintained flowers and staple greenery. The terrace is tree-lined with a lush green lawn. Choose to orient your guests to overlook the bluff or face the windmill. We have a metal and wood arch that you are welcome to incorporate into your ceremony as well as wine barrels and alter tables. We handle all of your set up and tear down.

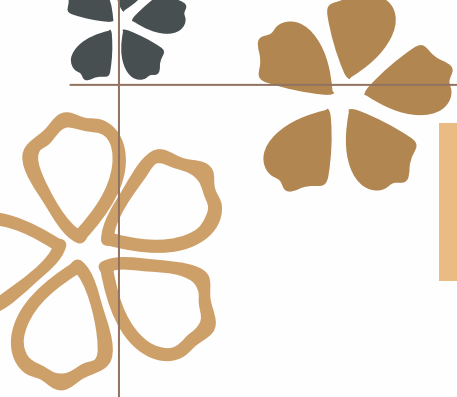

Coming Soon in 2023: The Grove

THE GROVE

White equestrian style barn located at the back of the mature pecan grove features a charming covered porch and picturesque photo opportunities for your nuptials! The pecan grove consists of 70+ producing trees and will provide a secluded backdrop as well as ample shade for all of your guests. This ceremony site will feature bench style seating for guests and stand alone barn doors to open for the bride's grand entrance. Your guests will enjoy a well marked trail walk to this ceremony site, and we will provide golf-cart transportation for any guests who are unable to make the walk. You will need to plan ahead for sound at this ceremony site. A simple powered speaker or P.A. system will work well in this space.
