Engagement Sessions

I absolutely love engagement sessions it gives us sometime before your wedding to just hang out and get to know each other. As well you get to spend time with your fiancée looking into each others eyes, cracking one another up, and just enjoying being in love. It also helps you feel more comfortable in front of the camera.

One of the other great things about engagements sessions is that they are completely FREE with most packages, and just like your wedding package you get all the custom processed high resolution files. As well you can use your engagement photos for Save the Dates, Guestbooks for your friends to leave their mark on you wedding day.
