# As a professional wedding photographer

I have the great honor not just taking photos, but create them. Being able to see and experience unique moments with couples and their families, is a precious gift. Capturing authentic emotion is a dream come true. I have always wanted to capture souls, not just faces.

# I have always worked following my feelings

One thing that makes a great photo is the ability to convey emotion.

I am trying to express people's feelings through photography and capture real moments.
