

Types of Photo Booths

Please let us know if there is something you are looking for that you do not see. We can build custom solutions to fit any needs.

Traditional Open Air

No need to cram everyone into a tiny box. An open air photo booth has enough room for everybody. Our fully automated photo booth is free-standing, and guest operated via touch-screen. Guests can interact with the screen to take their photo, then print, or share their photo via email facebook twitter and even MMS.

Video Booth

Capture video and audio moments and share them with the world. Great for weddings, film premiers, reunions and more. A video booth can be used in tandem with a traditional photo booth and just like all our setups guests can share to social media or email to themselves.

Instagram print station

Need a creative way to drive content to a hashtag campaign.? Try using our instagram print station. After guests post to social media using your pre-designated hashtag our booth can download their photos, add branding, collect data, and then let them print their favorite photos.

Selfie Booth

Just like our Open Air Traditional Booth, but smaller. A great booth for capturing smiling faces. its small compact design make it perfect for small gatherings, or tight spaces. As with all our booths you can fully customize the experience to fit your events unique style.

GIF Booth

Like a stop motion animation, a GIF booth allows guests to capture several frames of pose, and then makes a small stop motion effect for sharing with friends on social media. Length of animation can be customized to create the effect you love.

Green Screen Booth

Can't decide on a background? Then let your guests pick their favorite. We have an almost endless catalog of ideas for you to choose from. We can even make custom backdrops digitally. A timeless fun time and a great addition to any event.

Slo-mo Booth

Slow down.... Way down. Slow motion is outrageously fun. We start by taking a short video and then slow it down to create a fun effect. We add props that accentuate the fun and as always guests can share to Facebook, Twitter, or Email.

Light Painting Booth

Our Newest Offering!!!!!!

Let your guests paint with light, in REAL TIME!! This amazing experience will not be forgotten, guests create art using light pens, brushes and more. They can then be captured into the photo; just simply print; or share the art to social media or email!

Inflatable

Make a statement with our amazing inflatable. Any of our booths can be located inside, and the room can glow any color! Great for dances, birthday parties, or any modern style event. All of our Booth504 tech fits inside and always creates a draw.

Childs booth

Having a childs party? We have a booth for that! It is just the right size and super kid friendly. With it's simple interface children can use the booth and even print photos!

Sharing Station

Want to make the line move quicker? Add a sharing station, or two... After guests are done taking their photos, they can retrieve their prints or share socially while more guests can use one of our photo booths.
