While a wedding lasts just a day (or maybe a couple of days) the marriage lasts forever. Make sure that the memories you capture of that day are recorded to reflect your dream come true! After all you will have forever to remember that beautiful day. Wouldn't you rather have a professional service do this as opposed to Uncle Joe and his handy camera?

Capture your wedding day in up to 4K resolution (4 X HD resolution). Put the video online so everyone, including those who could not make it to your special day, can enjoy it with you. Maybe you really like the venue you selected. Have a professional, licensed drone operator cover the beautiful venue at sunset.

And we pull this off at very affordable rates. Below is a breakdown.

**Bronze Package**

\$1,500  
Ceremony Coverage  
2 Camera Operators  
1 Hour Coverage  
Videos are delivered on USB Drive  
Final Video available 2 weeks after wedding
