

# Services and Pricing

## **day-of coordinating: \$2000**

does your venue require a point person for the big day? do you want to be able to get to the venue five minutes before the ceremony and see that everything has been taken care of exactly as you imagined? do you want to not have to worry about a single thing other than saying “i do”? this is the option for you.

## **knee-to-alter wedding planning: \$4000**

i do the hard parts so you can just enjoy the experience. from the moment one of you drops to your knee and the other says yes, to the moment you leave the venue after a night full of dancing and celebration, i've got you covered. all coffee meetings, phone calls, and late night “but what about this” texts are included.

## **officiant services: \$600**

need someone to make it official? i'm ordained to preside over weddings in all 50 states, and i know how to make your ceremony go from a drab and drawn out formality to the highlight of the night.
