

Welcome

2019-2020 Bride & Grooms

First of all, I want to congratulate you on your engagement and welcome you to the wedding planning process. By now you have most likely set your date and venue for your wedding day! That's a pretty big step. Now you are looking for someone to preserve this precious day. This little packet will give you a glimpse of what your time with me will look like from beginning to end.

But first! Let me introduce myself.....

This is my little family! Ryan and I were highschool sweethearts, and were together for 7 years before we got married in 2009. We LOVE to renovate our home and make it perfect for us, we have two dogs, both rescues, and we have a 5 year old, red-headed gal named Gracie and a spunky little 2 year old boy named Eli. We love our simple life in Newport News Virginia! Now that you know a bit about me, I

hope to get to know you both!

THE *Next* STEPS

When you are ready we will set up a meeting either in my office or via online video chat. I love meeting with bride and grooms for many reasons. First, I want to see your face and you see mine because we should not be strangers when you get in front of my camera. This is a great way to get to know one another! Second, there is a lot of information and it is best to be given face to face. I have desinged this wedding photography experience to best fit unique couples. I know how to give you the best expereince from the engagement session to the (most important) wedding day and there are some things you should know. I am a planner, and I have found that this meeting serves a big role in the process of getting ready for your day! And third, you get to see the albums! Seeing the albums in person will help you make that choice. They are heirloom quality and there are some choices you should make when you see them in person/video.

After our meeting the contract and payments can all be done online so everything is much easier! Once the retainer is paid, contract signed and date is set we plan your engagement session and that's when the real fun begins!

Trust when I say that this process is carefully designed to be an expererience. Wedding planning can be overwhelming, so let this part be the easiest, least stressful part!
