## Welcome to the SOTA Entertainment Wedding Guide - We're glad you're here!

Thank you so much for visiting us at the Bridal & Wedding Expo! It was such a pleasure to meet you at the expo, and we look forward to learning more about your upcoming wedding. We know there were several other vendors that you visited, and you are probably being bombarded with e-mails and phone calls right now, so we will do our best to make this process as painless as possible.

At SOTA Entertainment, we don't believe in a one size fits all structure. We have a few packages to choose from, should any of these packages not fit your needs please let us know and we would be happy to provide a custom quote.

We are setting a new presedence in the Central Florida market. When I attend an event, I don't setup a pre-defined playlist and press shuffle. Just like a club DJ, I mix the music you hear live and on the spot. This makes requests much easier to accomodate, and allows me to ensure the dance floor stays hype and everyone has a great time!

In addition to the services outlined below, we also offer free consultations throughout the entire planning phase of your wedding. We use a software that will provide you with a portal to login to. On that portal we will send you some digital material that you will fill out to plan announcements, introductions, and the music on your special day! You will also be able to sign the contract, and view and make any upcoming payments. You can even request others to be added to the portal should they have something to contribute to the event.

Now, **let's get started!** Take a look at the packages we offer below. Place the checkbox next to the service you would like to learn more about. Upon completion of the brochure, your selections will be sent to our team and we will reach out to you to discuss these services further with you.
