It's important to have quite a good idea of the look and feel of the wedding and what your dress will look like before you start trialing hair and make-up. It's a good idea to start pulling pictures of make-up you like so you have visual references for your make-up artist. I do think a trial is a necessity though, as it makes sure there are no surprises on your big day and you are confident that your make-up artist can make you look your best. Includes lashes of your choice. Trial doesn't guarantee or saves the date. Wedding dates are booked by contract with 50% deposit. We work on a first come first serve basis.
