

- wedding info -

Most couples have initial questions on availability and package pricing for their wedding. First, make sure we know your date, city & state, and actually... - we don't have packages. We simply dedicate ourselves to you for a full-day and offer our crew and photo services for a single base price, adding only travel or multiple shooters on top of this. We shoot engagement and / or bridal sessions for all of our wedding clients, help plan the hour-to-hour logistics, recommend vendors, and give personal tips on everything from bridesmaid dresses to eye makeup - all as part of our service to you. In fact - our large, sunlit studio is often a staging area for a bride and her bridesmaids.

At our first discussion and we can quote a price very quickly - we personally work with all of our clients on a cost and the level of services that fit best for them. Our recent clients have been averaging around \$3000 as a general frame of reference.

Before that however - we'll assume you've seen our work, and met our crew - if not:

All of our clients receive a ~200 image highlight gallery shortly after their wedding, and a full gallery of approximately 1200-2000 images into a secure gallery follows this. In addition, our clients receive a file containing all images at hi-resolution with full 'ownership' of the content. Essentially this is your own copy of all images to do with whatever you choose!

If you want to see us really in action, take a 60 second look at our video: <https://vimeo.com/43875815>

AND - if you want a outside perspective on our company, read the story about us in Michigan's Awesome Mitten magazine: <http://www.awesomemitten.com/businesses/day-342-brockit/> - we still blush when we read it...

Call / email / IM / stalk us down to arrange a consultation - we can't wait to work with you!
