2022 Pricing Guide

We've been shooting weddings for a long time. We do it because we love it. There's just something about the joy, the community, the declarations of love—and the champagne—that make us so there's no place we'd rather be.

## WORKING WITH US

Photography is a lot like love—you can follow all the rules, but you won't find something truly beautiful unless you go with your gut. We draw on our experience and training to capture not just the who/what/where of your day, but the emotions and spirit of it as well. What we won't do is just check shots off a list and then call it a day.

Our clients have described our work as colorful, vibrant, full of life, fresh, modern, youthful, fun, real, crisp, and honest. We are lovers of natural light, a strong action-stopping camera flash, enchanting brides, inventive dance moves, making new friends and heartfelt toasts...
