"Open-style" Photo Booth (4 hours)	900 when booked with package (Normal rate = 1600)

# Cinematography

## *Cinematic Music Video* [Watch now!](#)

What we are known for! We capture cinematic highlights to edit into an epic 3-5 minute movie that tells the story of your wedding day!

## *Same-Day Edit* [Watch now!](#)

One of our most popular add-ons. The Cinematic Music Video is edited the same day and premiered at your reception! We provide a high-def projector, a large screen, and handle the playback. The premiere is always a huge hit and allows the guests and wedding party to relive the whole day together!

## *Full-Length Feature* [Watch now!](#)

Coverage of the ceremony and reception in a more traditional, documentary style. The ceremony is filmed in “real time” (i.e, if the wedding is 30 minutes long, the final edit will be roughly 30 minutes long). Major events of the reception are covered in this way, too. Average reception length is about 30 minutes.

- Multiple camera angles edited together
- Tiny wireless mics worn by groom and minister to capture crisp audio of the vows
- Audio recording of toasts, first dance, etc.
- Color grading/correcting of all footage

Cinema Features	Cinematic Music Video	Full-Length Feature
Cinematic clips of wedding day creatively edited into a music video	✓	
Complete, real-time video coverage of ceremony and major reception events		✓
Audio recording of vows, toasts, first dances, etc.		✓
4 DVD or Blu-ray copies	✓	✓

## *Engagement Music Video* [Watch now!](#)

You just gotta see these! These one-of-a-kind films highlight the playful, casual side of the couple as they gear up for the biggest day of their lives. For no extra charge, we can provide a high-def projector and large screen to premiere the video at the reception!

# Albums

## Photobook (8x8")

A hardcover book with 20 thin pages and standard photographic paper. All of our albums lay flat with no center gutter to allow for dramatic two-page spreads.

## Premium Custom Album

A beautiful 26-page book with a whole range of customizable options. Choose from dozens of cover materials, three different page thicknesses, dozens of paper types, and many spine options. Each album is its own creation!

## Designer Matted Album

A masterpiece designed to last generations. Each page is its own creation and can be fully customized with its own paper type, with premium artistic mattes and three-dimensional textural overlays. Translucent pages, luxury linings, and a whole host of options are available only in the Designer Matted Album.

Luxury linings available in a wide color palette			✓
Customizable Studio Box, with overprinting and ennoblement techniques			✓

## Engagement Guestbook

A customizable hardcover photo book with your engagement images and room for guests to leave their thoughts and well wishes.

## Platinum Designer Image Box

Fine art prints in a dedicated chest. The Image Box is fully customizable assembled from various materials selected by the couple. Inside are twenty gorgeous prints in the same style as the Platinum Designer Album.

# Extras

## Rock The Dress Shoot

A cinema and/or photography session done on a separate day. The bride and groom dress up in their wedding attire again and venture out to a number of locations (these can get pretty wild – the woods, waterfalls, four-wheel tracks, even underwater!). Cinematic footage from this session can even be mixed into your Cinematic Music Video ([see a sample!](#)).

## Save-the-Date Cards

Cards are designed from scratch and can be personalized to fit the couple.

## Raw Footage Hard Drive

All of the video footage from all of the cameras are given to you in a raw, unedited format for archival purposes.

# Photo Booth

Our open-style photo booth is always a huge hit. Being wide open, guests can watch each other ham it up and everyone gets in on the fun. We've yet to find the maximum capacity. Two dozen people at a time? No problem!

# Common Questions

*How many photos do we get when we book you for photography?*

While we don't strive to take a certain number of photos, the couple usually winds up with around 800-1,200 wedding photos and around 75-125 engagement photos.

*We get the wedding and engagement photos at high resolution, right? We can make our own prints?*

Yes, and yes. Photos are provided at high resolution, allowing you to make large prints if you wish. You can make your own prints/scrapbooks/whatever you want. We do offer prints as well for couples wanting something more specialized.

*Who chooses the song for the Cinematic Music Video?*

All of our songs come from a company that offers a huge selection in about every genre. We pay a licensing fee for each song we use to ensure that everything is legal and that the video can be freely shared. The couple is welcome to choose a song from that library, but in many cases they're happy to leave it to us to use our creativity and surprise them!

*When you film a Cinematic Music Video, are you recording the events (ceremony, toasts, dances, etc) in their entirety?*

No, full coverage of all major events is only included in the Full-Length Feature. When we film a Cinematic Music Video, we're recording artistic and creative snippets (usually 5-15 seconds at a time) to be edited together into a highlight film of your day.

*How long does it take for us to get our photos/videos after the wedding?*

Usually just a few weeks. We've heard horror stories of couples waiting six months, a year, or more to get their photos and videos, and we could never bring ourselves to do that to a couple! During quieter times of the year, usually 3-5 weeks. During busier times, usually 6-9 weeks.

*Do you bring back-up equipment to weddings?*

Always! The gear we use is very high-end and unlikely to fail, but we take absolutely no chances on once-in-a-lifetime events like weddings.

*Would you travel for a wedding?*

With pleasure! We're based in St. Louis, but we've shot weddings all over the U.S. and even out of country!

*How would I go about booking you guys?*

To reserve a wedding date, we require a deposit and will draw up a simple contract showing that the date is yours! Deposits are typically half of the total amount to book photo-only and cinema-only packages, and are typically one-third the total amount to book a photo/cinema combo package. Payment plans can sometimes be customized upon request.

*Who are you guys anyway?*

We're a family team consisting of several brothers and one sister! We feel it's a huge plus to have a photo and cinema team who knows each other so well and is used to working together.

The Arndt Family, December 2016.

Count 'em! 13 sons and only one daughter!
