Weddings & Destination Events

## HOW I WORK

Since 2016, I have been honing my skills as a photographer, dedicating myself to providing professional services that cater to my clients' unique needs. Before committing to any event, I prioritize open communication by engaging in a call with either the client or the wedding planner. This allows me to gain a comprehensive understanding of the project at hand. During this brief interview, I delve into various aspects such as the location, number of guests, time constraints, and budgetary considerations. By gathering these essential details, I am able to offer the most competitive pricing for potential clients.

To secure my services as your trusted photographer for your special occasion, a 25% deposit of the agreed-upon price is required. This not only guarantees your reservation but also ensures that a contract is put in place, solidifying our mutual commitment.

To facilitate the payment process, the total fee will be divided into three installments. The final payment will be due one month prior to the event, allowing ample time for both parties to prepare accordingly. Once the booking is confirmed, we will schedule a video call or phone conversation to establish a detailed timeline for your event. Building a strong rapport with each client is of utmost importance to me, as it enables me to create a personalized and memorable experience for all involved.

\*if you have any further inquiries or require additional information, please do not hesitate to reach out to me. You can contact me through my business email, phone number, or reach out to me via my social media platforms or website. I am readily available to assist you and provide any necessary clarification.

\*starting prices from 2.850 euro (the price for photography services is typically determined by several factors. These factors can vary depending on the photographer and the specific requirements of the event.)

\*location: The location of the event can also affect the pricing. If the event is in a remote or difficult-to-access area, the photographer may need to account for travel expenses and additional time required.

\* a common timeframe for delivery is around 4-6 weeks after the wedding or event. It's important to note that this timeframe is an estimate and can vary depending on the photographer's workload, the number of images captured, and any additional services or products included in your package.
