

Butch Gray, Disc Jockey/ Entertainer, L.L.C.

Butch Gray has been DJing professionally at events in New England and New York since 1989. His love of music and event production began when he received his first radio and tape recorder at 7 years old.

Your Dream Wedding begins with Butch's first meeting with you. Listening to what they have to say before and providing exactly what they want on the day...every time.

You have a dream and he has the knowledge and experience to create that dream for you. Tailoring his style and presentation to meet your musical taste and wedding theme is what separates him from the competition.

Butch was amazing and helped us throughout the entire process! He was professional, timely, and made some last minute adjustments for us the day of the wedding. Our venue was at Saint Clements Castle. The DJ was the most important part of the wedding for us because we wanted to have fun with our guests and he made it all happen.

If you love music, you will love Butch Gray DJ! Butch is bold! He will take the client's largest song list and find the perfect moment for each song. What this creates is a unique event that all in attendance will cherish and remember, as YOUR special day, for years to come.

All of our packages may be customized to match your needs. Some clients want their day filled with music, while others want theatrical lighting to accent their Wedding Cake or Sweetheart Table.

Still getting compliments about this DJ

From the initial phone call during planning, to the last song of the night, Butch was genuinely kind, professional, thoughtful, and attentive. His experience shows. When we first met face-to-face, I offhandedly complained about my makeup vendor. Well, Butch made a phone call and actually helped me to find someone new. He didn't have to do that, but he did and I was so appreciative. I told him how my then-fiance was not much of a dancer, but Butch's music got him to dance! On the day-of, Butch positively NAILED the music. We had tons of requests and he played 'em all (and didn't play a single song on my do-not-play list). The music transitions were just bananas. No way an iPhone and a speaker could have come anywhere close to the music and energy that night. I'm writing this review two weeks after our wedding, and I'm still getting compliments about how fun our wedding was. A DJ can make or break your wedding. Butch helped make our wedding what it was: perfect.

Butch was the epitome of a friendly, energetic, and conscientious MC. He kept things moving at just the right pace.

The sound quality was top notch and glitch-free during the ceremony, cocktail hour, and reception. For the ceremony and cocktail hour Butch worked with the musician we hired to ensure the sound was perfect.
