### *Wedding Management*

On your wedding day, your job is to get married. My job is to make that happen with as little stress as possible. Your experience for this package usually begins about 4-6 weeks before your wedding day. We will go through the timeline of the day and go over any last minute tasks you will be taking on. About 1 week before your wedding we will meet again, to go over the details of your décor and finalize minor details. You will hand over everything that you have for me to set up for your event. With all the details given to me at this point, you will not have to worry about a thing during the last week of your engagement. And on your wedding day, I will manage everything from vendors, to decor, to timeline, allowing you to focus on what is really important, getting married!

This package starts at \$950.

### *Partial Wedding Planning*

Need a little more than the end game but you've already started your planning process? This package guides you in the right direction of vendors that are perfect for your wedding. It also assists with the planning of the details and decor, by helping you come up with a full design plan. Some added last minute perks include RSVP organization and seating chart assistance. This package also includes everything that the Coordinator package has to offer.

This package starts at \$1,650.

### *Full Wedding Planning*

If you need someone by your side, helping you through the process of putting together an amazing wedding, then this is the package you should look into. We'll start with a detailed breakdown of your budget. Then, I'd love to assist you with finding and selecting the finest team of vendors that matches both your price point and your vision. I can help you plan the details and decor that will personalize the day for you and your fiancé. Weddings should be about the couple, and more than just up-lights in your favorite color. When your guests walk into your event, I want them to feel the love that went into planning that moment for them. It is a special and very personal day, and it should be planned as such!

This package starts at \$2,500.
