## WHY ARE YOU HIRING A WEDDING PHOTOGRAPHER?

### WHAT ARE THE PHOTOS' PURPOSE — *their legacy?*

It's so important to me that I'm not just a "vendor" for your day.

I want you to be so ecstatic that you'll have your memories attached to this piece of you and your family's history. I cannot wait to be in those moments with you and freeze them in time forever. How NUTS is it that we can do that? Your grandparents slow dancing at your reception, your mom zipping up your dress, your best friend from childhood who flew in from out of town. The messy tears and the laughter. I want to be there for you. It is an honor and a privilege to help save those moments.

Weddings are *special* that way.

*forever.  
making art  
out of love*

I basically just wanted my own work to practice on. I borrowed my boyfriend, Shawn's \$300 DSLR and basically held it hostage. I was in *love*.

Since then I started shooting a lot of portraits, and quite a bit of fashion... both are things I love shooting, but when I got a taste of shooting love – there was absolutely no turning back.

I never saw myself having *a wedding*.

Never imagined the venue, the flowers, or the centerpieces. Never had any ideas about what my hair would look like or the dress I would wear.

One night I was sitting with my mom and she said, "I see you getting married on a beach somewhere, with just a few friends.

Then afterwards we have a bonfire and music, and we laugh all night".

It's like she was living in my brain, that felt so right to me, and I had never seen a wedding like that. I didn't know that kind of thing was allowed? From then on that's the only way I've pictured *my wedding* to be one day. That's what I want to help my couples find.

## ENGAGEMENTS, ANNIVERSARIES, *Or just because.* . .

Engagement sessions are actually my very favorite type of session. It's such an amazing way to preserve a chapter in your life. Get those "my parents when they were younger" photos, really create a legacy of your story to pass down.

Wedding photos are amazing for so many different reasons, but casual, real life photos of a couple have special magic. Photos you'll recognize yourself in.

We'll plan these together, whatever will help tell your story is what I want to help you create!

Choose your add-ons

## DAY *After*

This is a really great option if you'd rather not worry about fitting portraits into your wedding day. This add-on is also perfect if you'd love to travel a little farther than what is possible on your wedding day to take your portraits in an amazing location.

\$750.00

## DAY *Before*

This is for the couples who want to fully capture this season of life, not just the wedding day. Maybe you want to take this evening and go through old photo albums, enjoy your family around a bonfire, have a cookout, take your dog for a walk around the neighborhood, or take one last trip to your favorite picnic spot as an engaged couple. Let's capture it fully.

\$750.00

## ADDITIONAL HOURS *of Coverage*

Most of the weddings I've photographed fit within an 8 hour timeline. This usually takes us from the "final touches" of getting ready through the first few special dances at the reception. Maybe you need a couple of extra hours because you're having a live band play at night or you want to have breakfast together the morning of.

\$500.00/hour

## RUSH *Turnaround*

My wedding galleries take up to 12 weeks, but if you'd like yours within 10 days, we can rush it! This is a great option for those eloping or just want to share their photos quickly with those who couldn't be there.

\$1,200.00

## MORNING OF *Boudoir\**

Let's spend some extra time together the morning of your wedding and after your hair and make up is ready to go – get some \*sexay\* pictures and polaroids taken for your partner (and for YOU).

\$550.00

## SECOND *Photographer*

I have shot most of my weddings solo, but having a second photographer can help ensure that no moments are missed.

\$550.00

# ABOUT *boudoir*

FOR THE MORNING OF —  
SOMETHING *spicy*. . .

WHO: MARISSA  
WHAT: BOUDOIR  
WHERE: AIRBNB

The morning of your wedding, after your hair and makeup is done, we'll send everyone away and take a few minutes to take some badass nudes hehehe. We'll plan this together, but picture you in your favorite lingerie, and me going absolutely nuts behind the camera about how hot you look. Then I'll slide you a couple of polaroids that you can keep or gift to your partner before your first look.

To ease your mind: I KNOW that this can be intimidating, and I just want you to know that I take the job of making you feel comfortable and confident so seriously. My mission is to lightly guide you into poses/ positions that create the most flattering, heart-stopping shots. Basically, I promise you'll look hot.

I romanticize the little moments. It's the feeling of making it so beautiful and feeling so full of life without having even opened your eyes yet. It's the desire to pull the beauty out of all things ordinary.

# FREQUENTLY ASKED *Questions.*

## IS THE RESERVATION FEE/DEPOSIT REFUNDABLE?

Because I use your reservation fee to hold your date, I cannot refund it. This is because I will have turned down other clients who have asked about your date.

## HOW DO YOU ACCEPT PAYMENT? HOW DO YOU ACCEPT PAYMENT?

I send a digital invoice that can be completed online through either bank transfer or debit/credit!

## WHAT DO WE DO IF IT'S RAINING ON OUR WEDDING DAY OR ENGAGEMENT SESSION?

Embrace it! That's part of your story! In the event that the weather is dangerous, or we mutually agree that the weather is unbearable, we will reschedule.

## HOW MANY IMAGES CAN WE EXPECT FROM OUR ENGAGEMENT OR WEDDING?

I don't promise a set amount of images, but I do promise not to leave anything out. Weddings typically get back 700 photos, and sessions usually get back 75. Depends on the type of session!

## CAN YOU SHOOT JUST OUR ENGAGEMENT SESSION IF YOU'RE NOT AVAILABLE FOR OUR WEDDING?

Asbolutely.

## DO WE NEED A SECOND SHOOTER?

I have shot most of my weddings solo! While this is true, a second shooter can ensure that there are no moments missed. Each person getting ready, photographing the person coming down the aisle, and the person looking on, simultaneously. It's great for peace of mind.

## DOES IT COST TO HAVE YOU TRAVEL TO OUR WEDDING? HOW MUCH?

The travel costs are included in your package. Just let me know where we're headed!

## CAN WE ORDER PRINTS OF YOUR IMAGES?

Of course! I HIGHLY recommend printing your photos! Your photos are valuable, and deserve to be admired. Your gallery also acts as a print shop, so take advantage of it!

## CAN WE BRING OUR DOG?

If you don't, I'll be pissed.

## HOW LONG UNTIL WE GET TO SEE OUR PHOTOS?

12 weeks for weddings, 4 weeks for sessions.
