TESTIMONIALS

"Brianna was so great!! She responded promptly, showed up early, and was such an upbeat, fun person to work with. She was taking our wedding photos midday in full sun, and came up with several creative options to get good lighting.

She made us feel so comfortable, and the photos came out great!! Would definitely love to work with Brianna again!!"

~ Shelly J, WeddingWire Review

"Finding a wedding photographer when you live out of state can be tough, and after my initial conversation with Brianna I knew she would be the perfect person to capture our wedding. She answered any all questions, and made sure to touch base with us leading up to our day. Brianna and Tom were very sweet and helped us feel comfortable while in front of the camera. We absolutely love all of the pictures they captured! I can't recommend Sonderful Studio enough :)"

FAQS

How many photos do we receive?

We don't like to limit ourselves and our clients to a set number of photos. All the photos from the shoot that turn out great will be included with your gallery.

However, as an estimate, an 8 hour wedding will receive about 400 photos. A 2 hour engagement usually receives around 60 images. A 1 hour family session will receive around 30 images.

When do we receive our photos?

We pride ourselves on our fast turnarounds. You will typically receive your first gallery of edited photos within 2 weeks. If you ordered images with high-end retouching, you will receive those within 1 week of the request.

Can I extend the session on the day of?

For engagement sessions, we may have a session right after yours so we typically do not accept time extensions. For events and weddings, we can work with your and our personal situation that day if it comes up. If you have any doubts on time, please book us for slightly longer ahead of time.

OUR STYLE

ORGANIC. CANDID. RAW.

I strive to capture every last detail, big and small, in the most beautiful and candid way possible. I am a story teller, and photographs are one of the very few tangible things we will have left to look back on these precious moments.

I have a weak spot for natural light and while I can absolutely shoot in artificial light, there is something about the dreaminess you can achieve with the warm haziness the sun casts down on us through the clouds and trees. Something just a little more real. We won't usually be carrying lights or a ton of extra gear. We won't set up too many poses except to help get a natural smile and reaction.

We shoot candid, raw, organic real images.
