WELCOME!

Hi and Welcome! I'm Kelsey, the photographer behind Keerha Visuals. If you've been to my website you already know a little back story about me, but to sum it up for you here, I've always been the one in my family and friend groups to capture the moments. It took some time for me to figure things out as an adult. Picking a career is intimidating and an immense amount of pressure. I had every job under the sun, a car detailer, gymnastics coach, receptionist, dog boarding attendant, pizza delivery driver, maid, uber driver, etc. But in 2017 I decided to pursue a degree in Commercial Photography and graduated in 2021. I landed a salary position as a Marketing photographer with a Jewelry company and at the beginning of 2023 I realized I needed something more than that. I wanted to do something with purpose, something that allowed me to give back to others in a creative way and that's when I decided to quit the 9-5 and go full on freelance! It's been the best decision I've made! Now I am here! Ready to dedicate my time in telling your story visually!

WHAT TO EXPECT

I APPROACH ALL OF MY CLIENTS WITH LOVE AND AN OPEN HEART.

I guide my couples with movement rather than poses. Catching those genuine moments, I feel, truly tells your story. With that being said some things you can expect when working with me are:

- We're friends! Before our session or day together my goal is to build a relationship that puts you at ease in front of my camera. Know that I am here to tell your story, so learning about you is important to me.
- Be prepared for prompts with a sprinkle of poses. When I say prompts I mean things like "run towards the camera while looking at each other" or "embrace one another and just be in this moment"
- I am always on time and usually early
- I am always eager to see the images after our time together so expect sneak peeks and sometimes early delivery of images!
- I love a good Pinterest board! and I'm always open to see your inspo, I actually encourage it!

PRICING FOR BOOKINGS MADE IN 2023* WILL BE UPDATED FOR 2024
