Package Approach – Do it your way!

While we have sample packages for your review. Our approach to packaging is really tailored to your requirements. We will help you create a personalized package that meets your needs and within your budget. Therefore, we offer "Site Only" packages for those who want to do the planning and organization themselves all the way to "All Inclusive" package where we are your wedding planners and organize and coordinate the whole event...of course all to you specific requirements and style! You can also do some yourself and have us to the rest...a true "build your own package"!

Site Only Packages

"Site Only" means you can bring in your own vendors such as caterers, DJ's, Florist, etc. (one of a few venues to allow this).
