What can VB photography not do?! From their amazing personalities to the absolute BEAUTIFUL photographs... they are unbeatable! They made the whole process so easy and comforting, engagement and wedding photos were a breeze! We can't thank them enough for being there throughout the entire process from our engagement session and on our special day.

You MUST hire this team!

Such an amazing team! From the engagement sessions to sharing the final product, Vanessa kept me updated and part of the process even while pregnant then having a newborn!!! So sad that she missed our big day, but the entire team was professional and on top of everything. If you want a team that is detail oriented, is super responsive to any questions or concerns you have, and turns over an INCREDIBLE product, this is the team to hire without a doubt!

Spectacular! Working with VB Photography was an absolute joy! I hired Vanessa back in January or February for my May wedding. Fast forward to april we had to re-schedule the wedding due to the pandemic and Vanessa was very accommodating to being there on our new date. She even said if she wasn't available she would send another photographer but do all the editing herself. We were so glad she was able to be there for our wedding. Working with her was great, she made things easy and really captured our special day. We just received our photos and couldn't be happier. The editing and quality of each photo exceeded our expectations. We got over 2000 pictures that all turned out perfect. I highly recommend VB Photography for any of your upcoming photography needs.
