

At DJs-R-US Entertainment

We specialize in elegant and fun weddings. We are honored to share one of the most important days of your life!

Planning your wedding day can take months of preparation. We listen to your needs and customize your wedding from beginning to end. Careful preparation ensures that your wedding will be elegant, fun and exciting, and go exactly the way you envisioned. Once our planning is completed, you can sit back, relax and enjoy your wedding day. Our DJ's will take care of the rest. We will serve as your reception coordinator by organizing every detail with your venue, photographer, and videographer. All formalities such as the cake cutting, toast, bouquet toss, first dance, etc. are announced so that all of your guests can be part of your wedding reception. From formal announcements and personalized introductions, everything will be discussed beforehand, and carried out just as you had imagined.

**Our Simple 3-Step Process**

- 1. Book with us.** Let us know when you're ready to move forward, to secure a date. When you are, then we will email you a contract and a wedding planning book. Simply fill out the contract and sign it and send it back to us. It's just that easy to do.
- 2. Plan with us.** During the planning phase we are here to help you in every step of the way. Use our wedding planning book to begin planning your celebration (choose your music and create a timeline of events). Then one month before your wedding day. We will need your wedding planning book back, so we can start to put your wedding agenda together for your special day. We will meet two weeks before your special day, where we will finalize every single detail of your celebration together. We will go over your music selection, event festivities, and timeline of events and your final payment is due that day.
- 3. Party Time!** Watch as your vision finally comes to life! Sit back, relax, and enjoy your special day with family & friends!
