SWEETS AND TREATS TO DIE FOR...

CAKE BOMBS

Though it may remind you of a cake pop, it will dazzle your senses in a way no cake pop ever could! At the center of each cake bomb is a decadent filling surrounded by a rich cake all enrobed in chocolate. We offer a variety of flavors and we are sure you will want to try them all! We have special seasonal offerings and we love experimenting so we periodically launch new flavors. All of the cake bombs need to be refrigerated to maintain optimal quality.

BISCOTTI

Originally, biscotti were made to be a long-lasting cookie for travelers. Although not the sweets we think of today, they were still much appreciated as they were carried by Roman Legions to battle. Later, Tuscan bakers used their culinary skills to make biscotti into a treat which they considered perfect to dip in wine for dessert. Today, whether you choose to dip your biscotti in coffee, wine or nothing at all, we have a flavor you will love.

OUR STORY

Killa Bites was born out of adversity and has since blossomed into a blessing. When life threw Laura Jhaveri lemons in the form of an ALS diagnosis for her husband, she needed a plan for her future. She could make lemonade or, in this case, chocolate.

After months of recipe-tweaking and taste-testing, Laura just needed one more thing to launch her sweet business— a partner! Donna Suomi and her scrumptious biscotti were the perfect match! Armed with support from family and friends, Donna and Laura embarked on a journey to make their dreams come true.

Since October 2013, the ladies have been busy baking and marketing their irresistible cake bombs, biscotti and popcorn.

POPCORN

Our popcorns are all made in small batches using non-GMO corn. Each of our four flavors begins with a made-from-scratch caramel base using real butter. The result is a crunchy corn bursting with flavor. We offer two flavors for our more conservative friends and two flavors for those who love adventure.

MASALA MADNESS
