# The Gold Package: \$1975

The Intro Package **includes** a beautiful engagement photography session. This is important, not only because we will get beautiful photographs for you to cherish forever, but also because **it is a time for me to really get to know you both**. The couples I photograph are not just customers to me; they are people who have given me the honor to capture the beauty of their special day and this is a perfect time for you both to get comfortable with me and getting your photographs taken.

Then, we go to the big day! After years of wedding photography and hundreds of thousands of photographs, I simply do not miss a single moment of your beautiful day. With the Intro Package, I show up the **second** you are ready to start your day. This means beautiful candid photographs of you and your bridesmaids finishing their hair, putting their jewelry on and lots of laughter (and maybe champagne!). This means I capture all of the beautiful emotion as you prepare to walk down the aisle, a day you have dreamed of since you were a little girl. But that's only one side of the group. I also capture the men getting ready, the smiles and camaraderie between the groom and his best men.

The emotion in the moment as he prepares to marry his best friend, his partner in life.

Then I am with you for **six hours**, through every step of your wedding, in between and at your reception. Capturing hundreds of photographs for you in every moment, both posed and all those perfect candid moments in between... The pictures that make you smile every day you look at them, for the rest of your life. The pictures you have always dreamed of.

100% guaranteed.

The photographs are delivered to you on a USB flash drive, catered specifically to you, with all of the photography in full resolution. These are your photographs **to keep**. For the rest of your life.

When you see all of your photographs, you can let me know any prints you would like and I will have it delivered to your doorstep in less than a week!
