

Video Dreams Productions

About us:

We are film lovers. And what really grabs us are the subtleties of certain moments. The smile on his face when he sees her for the first time. Small gestures, the touch of a hand. Those are the moments we capture. Not just a beautiful snapshot of a moment, but the whole moment as it naturally unfolds.

Video Dreams Productions is a premier cinematography studio specializing in wedding and corporate event videography. We provide cinematic records of life events, the moments that photography misses. The moments in between, when real life happens.

At Video Dreams Productions, we understand how expensive planning a wedding can be, we have been capturing these precious memories for over 25 years and are known for being very flexible to help meet your budget but yet give you a keepsake you will treasure for the rest of your lives.

We are a documentary style team who specialize in creating a film about the entire day, from several different perspectives to insure that when you watch it you not only see the things you know happened, but also the things you didn't know were happening. Because for the couple, the day will be a blur, with everyone and everything going on, our job is to capture and preserve it for you.

We are a husband and wife team who do this because we love seeing people on one of the happiest days of their lives. We do all of our own shooting and all of the editing ourselves, so you can be assured the persons you speak with on the phone will be the same ones who will be covering and editing your wedding day.

Each couple is unique, and even after filming over 500 weddings, we still find something surprising in every shot. Something breathtaking. And it's almost always when the couple doesn't realize anyone is watching. Imagine yourself so absorbed in the moment that the world slips away around you, and it is just the two of you. We are storytellers, there to capture the story of your day.

What we strive for is timeless and classic. We don't stage shots. We witness them. A moment that fifty years from now will remain beautifully composed, artistically edited, and emotionally alive.

Not just a moment between the two of you, but the time when your grandmother was still there, or you danced with your father. You and your family in real time. We create the cinema of your life.

Our approach is discrete and thoughtful. We blend into the atmosphere of the event, so the experience is personal, seamless, effortless. Natural. Just the way it happens.

2019 Pricing plan:

*Your investment depends on your wants and needs for your day, not ours, **we can and will customize our packages to fit any budget.***

No event is too big or too small for us as each day is special and unique to you and we understand that so that is why you're not tied to just the three packages below.

Below are some simple package outlines for you to see so that we know what type of coverage you are interested in when you call.

Gold Package: Starting at \$1800.00

Up to **ten hours** of coverage of your day from start to finish! Two videographers to provide complete coverage to run the multiple cameras we use to cover the ceremony and create your wedding film. The start time for the day is up to you!

We use high quality wireless microphones on the groom, readers and musicians for clear capture of the sounds of your beautiful ceremony. Our goal is to make it look and sound like you are right next to the couple when you watch the film, not in a large building with echo's, sounds of guest's and cellphones, just you two, the way it should be.

Coverage also includes the complete reception for as long as you need. By complete I mean, not just the standard formal events that all receptions have, but also the things you might miss such as conversations of family members, people wishing you well, your guest during cocktail hour, visiting with each other.

Also with this package, you get a short Highlight film of the day's events, set to music that you can choose! We give you a choice on the final product by sending you the first draft to allow you to view and offer feedback or suggestions if there is something you would like added or removed from the highlights reel! Once it is approved by you, we upload it online for you to share with family and friends who maybe could not come to your wedding or anyone else you desire..

Silver Package: Starting at \$1500.00

Up to **8 hours** of total coverage of your day from start to finish. When we start and finish is up to you!

You get everything mentioned in the gold package, with the exception of the second videographer and the highlight reel!

Bronze Package: Starting at \$1000.00

Up to **4 hours** of coverage of your day from start to finish. When we start and finish is up to you!

You get everything mentioned in the gold package, with the exception of the second videographer and the highlight reel!

All packages receive three copies of the DVD of the entire days events standard. If you desire, you can have the footage on any type of media you wish.

Deposit Terms:

We require a deposit of 25% down to hold the date for you that is due at the time of contract signing. The remaining balance is not due until one week before the wedding day.

We have many a la carte options available as well such as:

PHOTO MONTAGE of you two growing up that can be played at the reception or the church. Call for pricing!

We also can provide screen and projector to play your montage at the reception as well.

PHOTO BOOTHS , are now have available for your reception! Special pricing if you book with a package or you can have a booth for any function. Call for more information
