

WEDLOCK OFFICIANTS

The Wedding Package

The One & Only

\$1000

You can choose from one of eight ceremony scripts or if you prefer, I can custom author a ceremony for you based on your story. We can add a remembrance for those who have passed or can't make it, an energizing welcome and announcements to kindly ask your guests to refrain from taking photos and videos.

You can choose vow styles from love letters, repeat after me, write your own or love duet. We can find the perfect unity ceremonies that make your wedding unique and even make up new custom ones based on your hobbies and passions.

We can basically add, subtract or exchange any amount of content to customize the ceremony and make it yours. And if you prefer to have your story told, we'll start from your first impressions of each other, through that quirky things that you love about them, to your thoughts about your future together.

You'll get expert blocking (positioning and directions) advice to help your photographer get good photos during the ceremony. I've been in the industry since 2010 and been a husbandly assistant to my wife's award winning floral shop and wedding planning business. You'll get all the advice I've gleaned over a career's worth of experience.

Every best practice, cool tip and best effort I can put forth is right here in one package. You'll receive unlimited email and phone support, collaboration using Google Docs and my fine tuned process to help make sure you can get lost in the moment that you make your promise to your partner in front of family and friends.
