

# WELCOME

My name is Viviane, I am an Italian wedding photographer based in London (UK) and Naples (IT).

I'm inspired by people, the uniqueness of each human being and the relationship between individuals. Empathy is everything to me. I only use natural light and love to play with shadows. My work is always characterized by a discreet and respectful presence and by an artistic approach to wedding photography.

My aim is to obtain a stream of fine art images that will tell your story, emotions and moments. This approach is very different from traditional wedding photography, in fact I like to catch what happens around me without my external influence, as far as possible. I prefer preserving spontaneity rather than building my images. It is your wedding day we're talking about, and you have to freely live it to the fullest.
