

Package 1:

Elopement Ceremonies

\$225 and within the Trumansburg, Ithaca area

If you are looking for the sweetest, most romantic and beautifully written wedding ceremony, and aren't interested in customization, or working on drafts and content details, then this would be for you. I will take care and time to deliver a well spoken, truly cared-for product, with reflections on relationships, marriage, your future, and your past shared together.

With room for your own vows if you'd like, or your own vows in addition to the ones I have available, an Elopement Ceremony will fit the ideal vision you have for a wonderful and heartfelt ceremony - without a lot of planning, and allow the rest of the day free as newlyweds!

Package 2:

Customized Wedding Ceremonies

\$450, plus \$60 travel fee per hour, round trip

If you are looking for a customized wedding ceremony with original content written specifically for you, then this package will complete the vision with beauty and perfection.

Package 2 begins with a preliminary call to introduce ourselves, so I can hear your plans, along with descriptive words or feelings for the ceremony - or any vision of how you want it to go. If you haven't yet figured all of that out, that's completely fine - we can develop it together.

In this process, we will be working off my own expertly written content, and incorporate new, original content, just for you. We will go over all the logistics, including the processional and recessional, as well as other parts of the ceremony, such as where people stand, what might be potentially awkward, and what will work best. I will lend my experience-based advice, and help produce any new ideas you might have.

I will then fill out an outline with all of our notes and plans, and share it via Google Docs. We will use that as our base to work off of for the next few months until it's just right. We will want to talk again a couple weeks before the wedding to review and make sure everything's still looking good.

And then of course the wedding day! I will be on site an hour early to talk with everyone involved in the ceremony (photographer, person who has the rings, coordinator or planner) to ensure all is in place for your perfect day. (end here)

I would move the whole last paragraph (below) to Package 3 which needs beefing, considering it's 3x more expensive. Right now both packages are maybe the same length in descriptive? so the optics aren't good in that regard.

Package 3:

Your Wedding Story

\$2,000 and \$60 travel fee per hour, round trip.

Your personal, perfectly designed wedding story, every word written for you. This wedding ceremony package is for those looking for their own wedding and relationship literature to be written and spoken with utmost professionalism, skill, and expression of detail. Every word and paragraph will be original content specific to you, your partnership, background and future together. Think of it as a capture in written celebration of your romantic story. From ceremony start to finish, together we will plan all the details and provide the content based on your lives together, for me to write your perfect story - your own wedding book.

We will work together on edits if you prefer, and have fun creating your vision! We can meet any amount of times via video call, phone call, or in person if we are in the same area. During those calls we'll work on the outline I've created for us via a shared Google Doc, review and set goals, and go over the drafts I've written.

You are welcome to put in as much time or energy as you'd like, because I will take care of the rest. I will make absolutely sure that your ceremony will be the most wonderful, romantic and true-to-your-relationship feature incorporated into your wedding day. The notes I take and information gathered from you during several initial meetings will be more extensive than the other packages offered. The notes, stories, sentiment, history and features of your personalities - as individuals, and as a couple will be gathered in a more extensive way - as if I'm writing the book of your relationship, and how it came to be.

If you are looking for unique to you features in the ceremony, we can work together to create brand new parts and conceptualize fun, romantic and fantastic new parts and features that your guest will talk about and remember. An original poem perhaps - lasting words to highlight your love and care for each other.

And then of course the wedding day! I will have already communicated with your planner beforehand to make sure every preparation has been made and considered. Then I will be on site more than an hour early to talk with everyone involved in the ceremony (photographer, person who has the rings, planner, and whomever has the wedding license) and make sure everything is in place.

I have 22 years of experience and will put all of this to use delivering the story we've written, for your loving guests, family and friends. I will leave you with the written ceremony and vows on high quality paper for your wedding album.
