

Prices

Photo or engagement shoot: \$135/hour

This base price includes your choice of location, desired length of at least one hour, and any number of wardrobe changes. Be it senior portraits, engagement pictures, or just because you want some nice photos to post on social media, I would be more than happy to work with you and/or your group to capture whatever it is you have in mind. (Editing and post-processing are included in prices).

Weddings: \$900 for 6-8.5 hours of coverage, or \$150/hour

When it comes to photographing your wedding day, my service isn't just about taking pictures: it is about preserving memories so you and your guests can relive that wonderful day, time and time again. If you decide to hire me as your photographer, you can be assured that your special day will be captured, frame by frame, by someone who understands just how important this special day is.

Weddings with many attendants should check with me about certain logistics. In general, I work best with venues offering natural light, but have the equipment for more dimly lit indoor venues if that's the case as well. *I'm constantly looking to try new ideas, and am totally visual leaner: if you have any example photos, Pin boards, or Instagram feeds you want to try and recreate, send them my way!*
