## Packages and Options

### Enchant Package

For the most selective couple, we offer this premium package. Included is the 40 page Album Epoca Wedding Album, the very finest offered anywhere. These timeless works are individually handmade in Italy by artisans whose dedication to their craft is legendary. You can select from any of 400 cover choices for your primary wedding album, as well as, for the two included parent albums. Two 16x24" super premium canvasses of your most treasured photograph capture a cherished memory of your special day. Prior to your wedding day, our master photographer will conduct a two-hour engagement session and will create for you a stunning 20-page wedding signature book. Your beautiful engagement photos will enchant your guests as they write messages to the two of you at your wedding reception. Finally, all of the edited high-resolution images from both the engagement session and your wedding day are provided in both downloadable files through Dropbox format, as well as, on a website for your family and friends to enjoy.
