THE *Wedding* EXPERIENCE

PHILOSOPHY

Photography is more than just images, it's a real part of your day. Not only do you deserve beautiful images, you also deserve a great photographic experience. When our couples feel comfortable and relaxed in front of the camera, the results are genuine, joyful images! We aim to make you feel comfortable in front of the camera. We will give you all the direction and ideas you need...in a "guided candid" approach. Your wedding day is an experience from beginning to end and your photography is a big part of that experience..... shouldn't it be fun? and enjoyable? and natural? We think so! Our goal is to not only capture memories for our clients, it's also to create a positive experience you'll remember.

THE PROCESS

One way we ensure that our couples enjoy a great photographic experience is through forming a connection. A couple should connect with their photographer, trust their photographer and be EXCITED about the whole process! After booking, I (Becky) will send a detailed questionnaire so that I can get a solid idea of your wedding day plans. You'll receive our 75 page custom Brown Street Studios wedding guide to help you in your planning. Our guide is based on all the things we've learned in photographing over 300 weddings! I also love getting to know my clients through an ENGAGEMENT SESSION, which helps you warm up to the camera so that you are ready to rock and roll on the wedding day! By the time the wedding day approaches, clients feel more like friends and that creates a relaxed environment for photography! We work with many long distance couples, so an engagement session may not always be possible. No worries! We'll make you feel comfortable on your wedding day. You are in good hands!

THE WEDDING EXPERIENCE

ENGAGEMENT SESSIONS :

We love engagement sessions and usually plan them in the Northwoods! We have numerous gorgeous locations to fit any couple's style. If you're looking for a shoot in a different location....we can make arrangements for that. We love photographing engagement sessions in meaningful places for our couples! We book at least 1 month in advance.

DIGITAL FILES :

We average 100-150+ images per hour on a wedding day. We deliver our client's image files (digital negatives) quickly and easily via an editorial style online gallery. Simply share your link with family & friends to give them access to viewing and printing the images; professional quality prints for less than \$5 per print. The "digital negatives" and our copyright permission is included. We believe in sharing our work because that is what we would want if we were in your shoes!

COVERAGE :

We provide full event coverage... typically 8-10+ hours depending on your event, We can help you create a timeline to ensure great results in a fun and relaxed way. This is a complimentary service we provide for all of our clients. If you're working with a coordinator, let us know and we can be in touch.

OUR SHOOTING STYLE :

We love being both interactive and discreet throughout the wedding day. There will be parts of the wedding day when I will be directing in a fun & friendly way, in order to accomplish everything that needs to be done while staying on schedule. There will also be moments when you shouldn't even know that we are there. (The ceremony, during dances and toasts, etc.) We guide on how to pose, move, and interact, so you are natural and relaxed. We will give you as much or as little guidance and direction as you need.

BOOKING :

Once we have answered any questions you may have and you have decided that our wedding experience is what you're looking for on your wedding day, the next step is completing the contract and paying your \$1000.00 retainer to save your date on our calendar. Your retainer payment will be applied to your package total.
