HOW DOES IT WORK?

LOGISTICS

Since we are a boutique studio, we can only offer one photo booth per date. In the event of out-of-town bookings, we may only be able to take one event per weekend.

To hold your date, a 50% retainer is required for your desired collection. The remaining balance is due 2 weeks prior to your event.

Sales tax will be added to all collections with on-site printing.

All digital downloads will be available to both the client and guests for 30 days following the event.

Set up takes a little bit more than an hour, so we will work with you to determine load-in specifications with your venue. We highly recommend placing the photo booth inside your main reception space to optimize guest interaction. If your reception is outside, we will need to discuss logistics to make sure the booth can be safely set up. We cannot set up in high winds or any rain/moisture in the air or on the ground.

For set up, we require a minimum of a 10'x10' space, with available outlet for power. A banquet table and linen will be necessary for props, and we recommend a cocktail round and linen for our "Drink Babysitter" table.

The number of hours should correspond with the number of hours of your reception, however we will always temporarily close during formal events, such as toasts, introductions and dances, so your guests can stay focused on the events during those times.

One meal will need to be provided to the booth attendant and made available prior to the start time of the booth.

FLASH BY KWP BACKDROPS & PROPS

ESSENTIAL BACKDROPS

Rose Gold

Black Sequin

White Glitter

Sunray

Mojave

Lollipop

PREMIUM BACKDROPS

Crown

Diamond

Bubbly Mermaid

Gilded Gold

Rose

PROP SETS

Signs/Emojis - Animals - Disney - Bright/Fiesta/Retro - Glam/Gatsby - Drinks

CUSTOMIZED PRINTS

Each collection will come with a standard print design - these are designs that we have on file already, and we can change out text and dates. We do not send a proof of these basic designs once you make your initial selection.

For more customized designs, which include adding pre-designed monograms, adding additional elements, different backgrounds, etc - the custom print design option should be added to the Spark or Glow collections. This will also come with 2 rounds of proofs.

IPAD KIOSK

We just added our iPad integration to our photo booth collections! Now, guests can view all the images from the event from the kiosk, share via text, email or social media directly from the kiosk, create and view animated gifs and more!

The iPad kiosk interactivity station requires wi-fi connection to receive the images from the main booth system, and then to send to guests, so this may not be available for all venues.

TRAVEL

Travel fees will apply for any events outside of Orlando. Please inquire with your specific venue to get a travel estimate.

KWP COUPLES - 20% OFF

For any events with Kristen Weaver Photography as the photographer, a 20% discount will be applied to any Flash by KWP Collection!
