Wedding Investment Guide 2017

Congratulations on your engagement! This is such an exciting time for the both of you. I, too was recently a bride and married the love of my life in May 2012. Planning a wedding can be overwhelming, to say the least. You probably feel like there are 876 things to do, but not enough time to do them in. Well, one thing you won't need to worry about are your wedding photographs. I've got that covered for you. From the memorable 'getting-ready' shots, to the emotional moments shared between the bride and her father, to the tear-jerking ceremony and the celebratory reception. I will make sure that you remember every single minute of your wedding...forever.

For me, photography isn't just about the click of a button. It's much, much more than that. Photography is about capturing real life in all its glory, making sure that those special moments are never forgotten. I will make sure that your special day is never forgotten, that every tear and smile is remembered forever. Because love is...forever.

## ENGAGEMENT SESSIONS

Engagement sessions are included in wedding package 1 and a la carte for all others. I feel it's important for you to connect and get to know each other before your big day arrives.

Capturing this time in your life is so important, as it comes and goes so quickly. Engagement sessions are laid-back, fun and easy-going. It gives you a chance to become used to the camera, so that things flow smoothly on your wedding day.

Think of your engagement session as a fun day with your other half, with the end result of having beautiful images that you can treasure forever.

Posing for pictures can be difficult and very awkward at times. Don't worry about not knowing which way to look or where to place your hands, as I will give you plenty of direction and tips. By the end of session, you'll be a natural in front of the camera which will make your wedding session that much more fun and enjoyable.

Engagement sessions typically last 1 to 1.5 hours. Your session can take place at a location of your choice. I recommend bringing a spare outfit, as you may wish to have two differently styled sets of images. Hair and make-up services are also recommended but not required for your session.

The most important thing to remember for your engagement session is...have fun and enjoy the moment.

"Shasta was outstanding! We had her take our engagement photos and we loved them. Then most recently she shared our wedding day with us as our photographer. Loved working with her for the second time! She has a giving heart and captured many special memories."

Thank you Shasta
