

Hello!

Congratulations!!! You said yes!
Let me tell you about myself and walk you through a little bit of my pricing.

I have been a videographer for 3 and a half years. I started filming for friends and have worked to make it my profession, it is also the thing I'm most passionate about!

I love creating something timeless you can watch over and over again. I strive to capture those moments that will make you feel like you are reliving that day even 10 or 60 years down the road.

If you are interested in making those magic moments then we are a great fit! If you and your lover are ready for adventures, hopping fences to open fields, have random dance parties, and maybe getting a little dirt on your dress, then we will be a great fit!

My style of film is capturing the

candid and the dreamy shots! I individually choose each clip and song for every film. Each couple's story is unique and I tell that through my videos.

There's nothing more incredible than finding the one person you can't live without. Your true best friend. You two are on fire together. I want you two to soak this up because out of every human on planet earth, you found each other and said, no one else but you. That's pretty powerful.

xoxo

BRIDALS

here's why

What are Bridals??

Bridals used to be the term for the photos brides would take before their wedding. Now bridals are considered the shots or footage captured of the bride and groom separate from the wedding day.

What does a bridal video look like? [Click Here!](#)

Bridals are one of the best decisions you will make for your wedding.

Bridals are seriously No Stress!

Showcase

Why not just hang up photos at the reception or dinner when you can also have a video playing! It's so fun to see guests crowd around a gorgeous video of the two cutest people they came to celebrate!

No rush

Some people are so rushed or pressed for time after their ceremony that there isn't any time left for bride and groom photos. Doing bridals before or after allows for a more open schedule. With bridals you give yourself extra time to make sure we capture those precious and intimate moments between you and your love.

BRIDALS & WEDDING

The best of both worlds! The biggest thing that I love about bridals is the way they feel.

No one wants to be rushed while capturing the prime footage of themselves as a newly-wed bride and groom! You also don't want to be posing for a camera all day long while your guests are waiting to celebrate you! Bridals are a key part in this. Taking the time on a separate day to adventure with your lover to a beautiful land and capture some magic is seriously an absolute favorite.

This package includes a bridal session and 6 hours of coverage for the wedding day.

REVIEWS

from the bride

I absolutely adored the video Kennedy made me and my husband for our wedding. The video was so amazing because it really captured our personalities and our happiness on our big day. We watch it over and over again, and every time it brings back the same feelings. I am so glad that not only we had a video made, but we used Kennedy! She was amazing to work with. She made everything feel so relaxed and natural and that really showed in our video. The video to us was worth it because the day is such a blur, and it captures moments you don't even get to see!

The thing I loved most about Kennedy, and her video was how she included us in the process. She asked us if we like the song she chose, and would send us sneak peaks. I love that all of the transitions were edited so smoothly, and the color quality of the video.

from the bride

When we got married, we were both really adamant about having a video to supplement our wedding photos because we felt it would make the day much more special. Looking back I feel that was an understatement. I will cherish the video Kennedy made for the rest of my life and I can't explain the emotions we had when we watched it for the first time. She so perfectly captured our day and all the feelings that went with it. When I watch it, I am transported back to the best day of my life and I wouldn't have that if we would have just done wedding photos.

Kennidy's filming style was exactly what we wanted. It wasn't too short or too long, and she captured our personalities and the joy we all felt that day so perfectly. She has an eye for a good shot and is creative enough to put them all together so seamlessly.

FAQ's

have questions?

We love your work! Do you do both video and photos?

Yes, I do! But not at the same time. Unfortunately, in order to capture those special moments just perfectly, it's easiest to only use one mode of shooting. I have great referrals for whichever one you don't choose me for!

Do you only do weddings?

Not at all! I love doing all types of shoots that let me use my creative side. Anything from weddings to engagements and product or brand shoots, contact me for inquiries!

Do you do destination weddings?

Well heck yes!! Locations inspire me so much. I honestly get so excited about shooting in a new and unique location. So Duh, destinations are a go. :)

Will you send all the raw/unedited footage?

Unfortunately, No. I groom through test shots, missed focused shots, shots with bad expressions and other footage in order to give you perfect compilation of footage for your film.

How long have you been filming weddings?

3 and a half years now! I started filming for friends and absolutely loved it, so I worked to make it my profession.

When will we get our video back?

I wish I could give everyone's video back the day after, but simply creating magic takes time. It takes 2-3 months for your full film.

How does the payment schedule work?

I require 50% down at time of booking to hold your date, and the remaining payment is due 1 week prior to your wedding date. The downpayment is non-refundable.

thank you!
