*Your story starts here...*

# YOUR VISUAL LEGACY.

---

Here you stand, on the threshold of a new life together. You're facing your partner, hand in hand, seeing your hopes and dreams reflected in their eyes. The moments slow down as you realize that this is it. All your yesterdays and all your tomorrows come rushing together and meet at this exact place and time. Time is frozen. You catch your breath. This is it. This is forever. This is Love. You say 'I Do' and a new chapter begins...

THESE ARE THE MOMENTS YOU WILL HAND DOWN TO YOUR GRANDCHILDREN. WHAT DO YOU WANT THEM TO LOOK LIKE?

AT Obscura Photoworks, I take this question very seriously. The photographs we take are all that remain to pass memories down to future generations. What do you want these

photographs to say about you? Your wedding photography is a reflection of this commitment to preserve your visual legacy for years to come. Through compelling storytelling, these little moments of life are captured and preserved for you to pass down. This is the guiding principle that directs me when I shoot a wedding. Your photos should speak of how you *feel*, not just how you look.

*Together,*

WE WILL CAPTURE IT.

---

I believe that trust and collaboration are imperative to creating the imagery worthy of being your visual legacy. To this end, I work closely with you, to get to know you and your personalities so that the photographs that you receive are a reflection of you- not my fancies. Your families are no doubt big parts of your life and their stories are intertwined with your story. I focus as well on capturing how these legacies will continue on, bound together within your love. This spirit of collaboration is what drives me onward to create my art, and share it with others. If this excites you, please read further for more information

about pricing and booking. I take only a handful of commissions a year so that I may dedicate the one-on-one attention necessary, so call today to find your date. I look forward to hearing from you soon!

# PRICE LIST

---

**Full day** wedding coverage starting at \$3,500.

Includes up to 8 hrs coverage of your wedding day, from getting ready to final send off. Your edited images will be delivered to you on a thumb drive within a custom handmade print box to protect your investment. A complementary engagement session is also included with this cost as well as the optional use of a second photographer during your wedding day.

**Half day** ceremony and portraiture coverage starting at \$2,250.

I dedicate the same level of attention and artistry, but within shortened hours that includes only the ceremony and portraits afterwards. This 4 hour package is ideal for those wanting to focus solely on that.

**Intimate** package starting at \$550.

Perfect for an elopement, this intimate package offers direct one-on-one time to capture beautiful portraits and your quick ceremony, or a proposal or engagement session before your wedding day. Up to 2 hrs of coverage included.

**A la carte** options available.

Since no two wedding stories are the same, no two packages should fit every need. We welcome the collaborative process to build just the right package that suits your needs. Call or email me today and I will be happy to work with you to get it just right.
