

### **Five-Hour Package ~ 795.00**

The price includes up to 5 hours of DJ time, use of mics for ceremonies, toast, and I will Emcee all your events for the day. I tailor the music to what you want to be played using our DJ Worksheet I created for all the events like cake cutting, your first dance, etc. You will get my DJ worksheet that takes us to before the ceremony starts to your last dance.

### **Lighting Package ~ 125.00 +**

Four lights set the mood for dancing. We can set our lights to be a solid color during dinner, your first dances, and change them to move to the beat for dancing. For outdoor summer weddings, lights are not effective until it gets dark, so save your money if you end by 10 PM.

### **Second Sound System ~ 175.00+**

Some venues require an additional system if the ceremony is going to be in a different part of the venue than the reception or dinner. The 125+.00 price includes the use of microphones, a lapel mic for the officiant, and a handheld for the couple so everyone can hear the ceremony. This is one speaker set up. One speaker setup is enough for an outdoor ceremony.

If the area is smaller but events are happening in areas close together, a one system set is all you will need. My main system is a Bose and it will play on a football field.

### **Deposit ~ 350.00**

A 300.00 deposit holds your date. The remaining balance is due two weeks before your wedding.

**50.00 Discount** is always offered to Military, Veterans, and First Responders, ID is required
