

**Alterations are based on \$35.00 per hour.**

Generally each alteration take about an hour and I estimate the cost this way. for example adjusting the bust, taking up shoulders these would generally take about an hour each.

Hems that are huge and multiple layers would cost more that a small single layered hem.

Until I see the gown or dress it is hard to estimate. Beading that needs to be removed to take up a shoulder takes longer than a spaghetti strap.

A dress that need to have the bust taken in, the shoulders shortened and a \*multi layered ball gown hem shortened, I would estimate 175.00 ~ 200.00

\* 105.00 for multilayers to be hemmed.

***All alterations estimates are made in person.***

I can remake a vintage dress with my creative solutions.

I love a challenge!

Dry your tears and tell me what you are hoping to have!

Dress to small maybe lacing it up will solve the problem, I can do that!
