

CHELSEA HELLEN PHOTOGRAPHY

The Engagement Session

In our fast-paced world, sometimes we forget to enjoy the moments of being together. We see this time as an opportunity to learn more about you and your love story. The more comfortable you are with us, the more natural you will be in your wedding portraits.

Getting Ready

We begin the day capturing you and your bridal party preparing for your big day, whether it be at a salon, a church, or your home. Your focus should be on you, not us. While you're drinking mimosas and celebrating with friends, we'll be there focusing on the intimate details and candid moments of these special moments.

Portraits

We wouldn't call our style traditional per se. It's more of a mix of traditional and candid shots. Don't worry, grandma will get that beautiful head shot she wants, but you'll also get the more creative portraits you're looking for. While we capture the standard wedding portraits, we love stepping back and letting you interact on your big day. After all, you want to see emotion in your portraits, not just poses.

Your Wedding Day Coverage

Maybe you ditched the elaborate wedding for a more intimate one that better suits you. Maybe you couldn't wait to have the giant reception with the insane cake. Either way, we can tailor coverage for you. We want you to look back at your wedding photos and see the emotions you felt that day.

Ceremony

Every ceremony is as unique as your relationship. Did you opt for a traditional church ceremony? Or an outdoor ceremony? No problem! We blend in so your guests remember the ceremony--not your photographer--capturing multiple angles and crowd reactions. Regardless of location, we'll capture everything from your walk down the aisle to your first kiss.

Reception

From cocktail hour and your first dance to the celebration and dancing, we'll be there to document smiles, tears, and laughs from behind the scenes. We'll make sure you have a photo that displays what you were feeling during your first dance and how everyone else felt after a few drinks.

My name is Chelsea Hellen. I'm a lover of the arts & romantic comedies; I'm a dog mom and a wife; and an accomplished photographer. For the past eight years, I have been capturing couples in love, "I do's", and other portraits. Unlike most photographers, I had the pleasure of beginning this journey on film and developing myself. Learning on film gave me the ability to learn exposure and composition, without editing.

I fell in love with photos while digging through boxes of family memories and with photography while watching photos come alive in a dark room. It amazes me how much emotion can be captured in a still image. I want you to be able to look at your wedding portraits ten years from now and still feel the butterflies you once felt before walking down the aisle or the love you felt when you saw your significant other at the other end of the aisle.
