Pricing Guide

Purchasing a piece of art is a serious investment. But when that art is a collection of photographs of you, someone you love, or a special event, it's also personal. We believe your investment should be as unique as you are. The cost of your photo package is based on time, scope, and any products you choose to add.

Retouching Service

All photos undergo intense editing and color treatment in keeping with our creative style. However, when requested, a careful and targeted *smoothing of skin, whitening of teeth, and removal of skin blemishes, stray hairs and fibers* can be applied. It is a subtle retouching that avoids an artificial look on skin, etc. and maintains a natural appearance.

Charge (up to 10 photos) | \$15 per photo

Bulk Charge (10+ photos) | \$10 per photo

DISCLAIMER: Retouching a photograph requires skill and personal judgment and the results are limited by available technology. If we believe an alteration will substantially compromise the integrity and quality of an image, the alteration will not be done, and you will not be charged for retouching that image.
