FILM DESCRIPTIONS:

Short Film (6-8 min):

The short film perfectly encapsulates your wedding experience in an a 6-8 minute creative edit. It artistically blends visual and audio highlights from your day, and is precisely matched to the emotional flow of a musical score. We license a unique instrumental soundtrack for your film inspired by your musical preferences. This film is the perfect length to enjoy again and again over the years, and is great for sharing with friends and family.

Documentary (~1 hour):

The documentary captures all the main events from your wedding day, including full unabridged edits of your ceremony and toasts. While the short film is condensed, stylized, and precisely edited to a musical score, the documentary features more live sound from the environment and lets the main events unfold in real-time. The editing of the documentary is more straightforward, and the coverage is comprehensive, for when you want to relive every moment.

Feature Film (12-15 min):

The feature film comes with our premium package that includes two videographers for ten hours. This allows for more coverage from different angles, and gives us more material to create a longer creative film. Like the short film, the feature film is meticulously crafted and fine-tuned to a musical score in an artistic way. It tends to include more behind-the-scenes footage of wedding preparations and extended portions of dialogue from the ceremony and speeches, for an in-depth retelling of your wedding experience.

Teaser (1-2 min)

The teaser is a short sneak-preview that gets released before the feature film.

All packages require a 50% retainer to reserve the date. Additional hours of filming are \$100/hour, per videographer. DVDs/Blu-Rays include custom-designed jackets and disc labels. Additional DVDs/Blu-Rays available for \$20 each. Travel costs will be added to any wedding more than an hour away from Seattle. Inquire for a quote on travel costs.
