Hello! I'm Sarah and I am a beach adoring fine art boudoir, portrait, elopement and wedding photographer based on gorgeous Cape Cod in Massachusetts. Celebrating my 20 years, I've had the privilege of documenting exceptional and adventurous couples as they take their relationships to the next level of love and commitment... And beyond.

I look for those moments of real joy, love, tears and the crazy ones where you may have thought no one was looking. And I adore long lasting relationships with our couples. This is what I am forever grateful for... and it's a ridiculous amount of fun along the way.

I am engaged to an amazing man named James who is a finance guy by day and a photographer by night. He's also a talented musician with a passion for music, plays drums and loves wedding cake. He is my associate and second photographer who will be by my side to capture your day in the most awesome way. Green is my favorite color. Orange is his. We love exploring the world together, most recently Costa Rica. I sing but haven't become famous just yet... And I play alternative 90's and classic rock on my little green Martin ukulele. His ukulele is of course, orange.

"I knew as soon as I saw Sarah's photos of other beautiful Cape Cod weddings that she was the one I wanted to capture our special day! Her photography style was exactly what we were looking for – timeless, elegant yet capturing those special unique moments. And Sarah did exactly that and much more. The weather was a bit cloudy and misty and there was a moment where my coordinator asked me to make the call for our outdoor beach ceremony or to have it inside. Not knowing what to do- if it would rain or hold up – Sarah stepped in and help make the decision with me. It was going to be on the beach and I am sooo glad it was. The sun peaked out in the distance as I walked down the sandy aisle. We even had a surprise cocktail hour entrance on our own speed boat and Sarah jumped right in it and got some incredible shots out on the ocean. Sarah was not only professional and talented but she was so much fun!! We loved having her there! We highly recommend Sarah Murray Photography!"

A Gorgeous Display of Memories

Wedding albums are an important part of the legacy you build together as a couple. You've most likely found yourself looking through a wedding album of your parents or grandparents. In this digital day and age it is important to have this beautiful keepsake to display your wedding day, boudoir or family photos.

Leather albums embody the timeless, classic look that will always inspire. I offer several genuine Italian grade leathers or the option to have an elegant heirloom album with one of our luxe linen fabrics or Japanese silks. If you prefer a photo cover, your portrait will be wrapped around your album in a gorgeous and unique way.

Whether your story is short and sweet or the extended version, I offer just the right amount of album spreads. Albums also come in a variety of sizes including square, vertical, and horizontal formats. Your album can be as unique as you are.

“Sarah Murray Photography made our wedding photo dreams come true. She has an eye for capturing the most beautiful moments like no other. The quality of each photo is exquisite. It brings you back to those moments as if they had just happened. They bring tears to my eyes every single time. Each photo brings so much joy. And every photo is perfectly captured. Throughout our wedding planning process Sarah was always available for questions and concerns. She was so detailed with all my questions it made me feel at ease. She goes through expectations for your wedding day and even beyond. She truly does want the absolute best for each of her clients. I have found my lifetime photographer/friend! The day of the wedding Sarah & James captured everything. Our wedding day was during a Nor’easter but that didn’t stop them from getting any shots. They were out on the beach with us making sure my husband and I could look back at our memories and smile. And we most certainly do. Our photos are beyond gorgeous.”
